*Proceedings of the Madras Government, Public Works Department,
17th September 1873.*

No. 260. Read the following letter from T. MOSS, Esq., Officiating Controller of Public Works Accounts, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Fort St. George, 20th August 1873, No. 3,071:—

With reference to G. O., No. 1,970, of the 7th instant, I have the honour to suggest, for the consideration of Government, that the formation of separate ranges may be limited to cases in which the special officers, in being members of the Engineer establishment, would, if not treated as Range Officers, be placed in account with upper subordinates in charge of regular ranges. However small the range may be, it is necessary in this office to keep up the same number of books as for the largest range, and, therefore, it is desirable that the number of ranges should not be increased unless absolutely necessary.

2. I may add that in the particular case to which the above quoted G. O. refers, I quite agreed in the necessity of a separate charge for Lieutenant Henderson, but recommended that the sanction of Government should be obtained, believing such sanction to be necessary since an additional account had to be opened in the Government books.

No. 261. ORDER THEREON, 17th September 1873, No. 2,299.

ESTABLISHMENT, No. 26.

In the exercise of the discretion conferred on them by G. O., No. 1,970, of 7th August, District Engineers will take care that no unnecessary multiplication of ranges is incurred such as would be objected to by the Controller on the grounds set forth in this letter. They will report to Government every case in which they may exercise the discretion. The East Coast Canal charge is an exceptional one, which will increase in importance its scope extending through all three ranges of the district; hence it can never lapse into a sub-divisional charge.

Sir,

With reference to
G.O. No. 1970 of the 7th instant,
I have the honor to suggest.

for the consideration of
Government that the forma-
tion of separate Ranges
may be limited to cases
in which the Special Offi-
cers, in being members of
the

the Engineer Establishment,
would if not treated as Range
Officers, be placed in account
with Upper Subordinates in
charge of regular Ranges.

However small the Range
may be, it is necessary in
this Office to keep up the
same number of Books
as for the largest Range

and therefore it is desirable,
that the number of Ranges
should not be increased un-
less absolutely necessary.

I may add that in
this particular case to
which the above quoted
G.O. refers, I quite agreed
in

in the necessity of a separate
charge for Lieutenant Henderson,
but recommended that the
sanction of Government should
be obtained, believing such
sanction to be necessary since
an additional account had
to be opened in the Govern-
ment Books.

I have the honor to be,

Sir,

Your most obedient servant,

Offg. Controller of U.W. Accounts.
