No. 407. *Dated 26th September* 1873, *No.* 2,376.

ACCOUNT, No. 29.

His Excellency the Governor in Council having already authorized the District Engineer of the Godavery to run a steamer on the river for the purpose of developing its traffic and obtaining accurate data relative to the same, has no objection to the transfer of another steamer to the Central Provinces, its cost and the cost of working it being charged to that Government, and the gross profits being credited to Imperial Revenue wherever they may be realized. It is not, however, manifest that a competent Commander for the second steamer is available.

2. These and the former Proceedings alluded to will be forwarded to the Government of India, with a request that permission may be given to defray the expenses of the trips proposed to be made by adequate savings anticipated on the Agricultural allotment.
