Cockleshell Barrage Office
24th April 1873

Sir

The Officer in charge of
Cockleshell Barrage

To

The Resident Engineer
Cockleshell

In reference to your docket
of the 22nd instant, I have the
honor to direct that Sicilian may be
discharged from Cockleshell July 1872, as the
services could not be dispensed from
sooner. Corporal Stevens, it was only received
at the Office on the 25th January 1873.

2. I have also the honor to inform you that
Sicilian on the 5th November 1871, on receipt
of the superintending Engineer's Order, that
the Foreman could not be taken Charge of
the Flat until Royal Sanctioned
Richmond was directed to assume temporary
Charge, but had no opportunity of going
to Flat Royal Sanctioned July till 10th February
1872, when I sent up myself.

3 Sicilian Isidro had his Tools in a
Godown locked up, which had to be broken
open, as the key had never been handed over
to any one by Sicilian Isidro. It was
only

only then, that the Tools were found deficient
and duly reported. I made enquiries and
found Archibald Cain Esqr was not in Cod
-dapah, but had gone to Madras a Month
or two previously, so that part of the story
of his being here for 6 Months after he
missed is entirely incorrect.

In Perusing the Correspondence sent with this
letter, you will see that Mr Ellis re
ports that the Tools Cannot be procured
as there are no receipts for them in his
Office.

In Perusing the Correspondence herein Enclosed
it will be found that steps have been taken
to find out about these Tools. The only gen
tleman here any thing about them was Archibald
Cain Esqr who had addressed on the matter
but the only reply received in that Gentlemans
Memorandum of Statement of his proceedings
a Copy of which is forwarded with your receipt
under reply.

I have the honor to be
Sir
Your Most Obedient Servant
(Signed) P Orde Lieut Col.
Asst Engineer.
