ABSTRACT.—*Irrigation Works*.—Letter from the Government of India noticing with satisfaction the orders passed by the Madras Government regarding the preparation of statements showing the financial results from irrigation works and the introduction of the new forms of account for irrigation projects, and desiring the submission of certain information on the subject, communicated to the officers concerned with instructions.

THE Board observe that paragraph 6 of G. O. No. 1,102 of 30th April 1872, has been already replied to in their Proceedings, dated 28th May 1872, No. 842.

* Ganjam, South Arcot, and Trichinopoly. There are still three districts* from which the returns are due, and the Collectors of those districts have been requested to despatch them at an early date.

2. With reference to the Irrigation Registers referred to in paragraph 2, the Board observe that they are reported to have been completed, or almost completed, in all the districts excepting the four noted in the margin. Most of them, however, are not yet printed, some being still with the Superintending Engineers, to whom they were sent in order that the columns of expenditure, etc., might be filled up.

3. The Collectors of all the districts, excepting the three noted in the margin in which there are no irrigation works, will be requested to report at once how many registers have been finally prepared and printed and how many remain yet to be printed, and the cause of the delay. They will also state how far the mode adopted by them for calculating the revenue under each source of irrigation corresponds with the instructions contained in the Board's Proceedings, dated 17th June 1872, No. 1,018, and approved of by Government in their Order, dated 25th July 1872, No. 1,766, copies of which are herewith forwarded.
