B.P. No. 52-53		Mis.
Dated	3—10-	195/ 8.73

Not to be folded or roughly handled

No. 52. Read the following endorsement of the Inspecting Engineer for Civil and Military Buildings, dated Chepauk, 13th September 1873, No. 1,108 :—

From Major R. F. OAKES, R.E., District Engineer, Tanjore, to Colonel E. A. FOORD, R.E., Inspecting Engineer for Civil and Military Buildings, dated Tanjore, 21st August 1873, No. 540.

I HAVE the honour to forward for sanction the enclosed estimate, amounting to Rupees 1,490, duly countersigned by the Collector for repairing the roof of the Taluq Catcherry at Mannargudi. The roof is supported by Malabar trusses which are in good order, but some of the rafters are in very bad order; it is proposed to provide teakwood reepers where the reepers have to be renewed, removing the sound reepers to the third of the building for the roof of which a sufficient number will probably be available.

2. The estimate also provides for supporting the rear wall of the record-room which appears to have settled in some degree and for four ventilators, as the record-room is said to be very dark.

	Rs.
The stock value of the building is	4,332
Improvements now under execution amount to	900
While the cost of the new Sub-Jail and out-houses is...	4,567
Making the total when the buildings are completed...	9,799

3. The amount of the estimate may be met from the allotment for the repair of Civil Buildings in the current year's Budget.

UNDER paragraph 102, Chapter V. of the Public Works Code, the estimate of Rupees 1,490 for repairing the roof of the Mannargudi Taluq Catcherry is forwarded to Government for sanction from the source indicated by the District Engineer.

1 Estimate.
1 Specification.

2. The roof of the Cutcherry having been reported to be extremely leaky and in urgent need of repairs, the District Engineer has commenced the work on emergency, with the concurrence of the Collector, in anticipation of the sanction of estimate.

Sir

I have the honor to forward for submission the enclosed Estimate amounting to Rupees 1490 duly countersigned by the Collector for repairs of the roof of the Jutog Cutcherry & Treasury godown. The roof is supported by Bricklaid walls which are in good order, but some of the Rafters are very bad & any & it is proposed to provide new Rafters where the Rafters have to be renewed, removing the Sound Rafters to the 3rd of the Building for the roof of which a sufficient number will probably be available.

The estimate also provides for supporting

supporting the rear wall of the record room which appears to have settled in some degree, and for four Cubicles as the record room is said to be very dark.

The Stock Value of the Building is (Rupees) ——— } 1332

Improvements now under execution amount to (Rupees) } 900

While the cost of the new Cubjail and Court Houses (Rs) } 4567

Making the total when the Buildings are completed – (Rupees) } 17799

The amount of the Estimate, now submitted from the allotment for the repair of Civil Buildings in the Current year's Budget.

Above the Honourable Signed by Lt Col Robertson Draper Executive Engineer.

Dated 1st Oct 1878

Under paragraphs Chapter V, of the Public Works Code, the Estimate of Rs 1190, for repairing the roof of the Mannargoody Talook Cutcherry is forwarded to Government for sanction

Executive Engineer's Estimate for repairs to Roof of Cutcherry

From the Executive Engineer to the Secretary to Government

The roof of the Cutcherry having been reported to be extremely decayed and in need of repair the Divisional Engineer had commenced the work on emergency with the concurrence of the Collector, but anticipation of the Annual Grant of estimate.
