*Proceedings of the Madras Government, Public Works Department,
24th January 1873.*

No. 511. Read the following endorsement of the Chief Engineer for Irrigation, dated Fort St. George, 19th December 1872, No. 67 :—

From the Acting Manager of the Madras Irrigation and Canal Company, to the Examiner of Accounts, dated Madras, 18th December 1872, No. 41.

I HAVE the honour to enclose, for the favour of your signature, an indent for funds required for Revenue expenditure, and in compliance with your suggestion I have inserted an amount sufficient to carry us on to the end of January next.

2. I must explain that the last Revenue Indent, which was for Rupees 18,000, purported to be for the months of November and December 1872 and January 1873, but it has not sufficed for that period, because in calculating the amount the proportion of General Management was not included.

3. The item of General Management has now to be provided for, for the months September to December 1872, and you will observe that in the Indent I have entered Rupees 3,000 as a liability for each of those months. The Rupees 9,000 entered for January 1873 is the average monthly expenditure, inclusive of the proportion of General Management.

4. As my balance of the Revenue Advance is so small, and I have to provide for the Maintenance Establishment expenditure early next month, I will ask you to be so good as to expedite the Indent, and if, when you have signed the document you will, to save time, send it on direct to the Chief Engineer for Irrigation, you will very much oblige me.
