ACCOUNT, No. 14.

THE control and allotment of the Provincial Repair Funds under the head of "Civil Buildings" shall, as in the case of Military Buildings, be vested in the Inspecting Engineer for Buildings. He will be guided in his distribution to districts, as District Engineers in their distribution to ranges, by the principles laid down in the Chief Engineer's Circular

Proceedings of the Madras Government, Public Works Department, 14*th November* 1873.

No. 414, of 30th October 1873, and by the actual expenditure entered in the Monthly Progress Reports which he receives from districts. The same principles should be acted on with reference to the allotment of Military Repair Funds; and attention to them will, it is believed, lead to more accurate working up to available means, and prompter compliance with the actual requirements of buildings of both classes.
