No. 735B.

SUBMITTED for the information of Government. As regards repairs, it will be seen that in the Kistna the outlay during the first five months of the year has exceeded greatly the usual annual allotment. Owing to alleged difficulties in obtaining labour, channel clearances and other repairs were greatly in arrears; the present District Engineer has succeeded in obtaining labour, and has carried out a very large amount of work. In Chingleput a great improvement is manifested in the progress of work of this description.

2. Minor new works continue to be generally behindhand.
