No. 258. Read the following letter from T. MOSS, Esq., Officiating Controller of Public Works Accounts, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Fort St. George, 18th October 1873, No. 4,566 :—

In forwarding herewith statements of expenditure, as compared with grants Imperial Extraordinary and Ordinary, Provincial and Local up to the end of May 1873, I have the honour to state that as all but routine work fell into arrears in this office in attending to the annual accounts of 1872-73, I have thought it best to commence submitting such statements from May, that is, for the month of May omitting those for April 1873, which need not now be referred to since those for May are ready. These statements for May are also late, but I trust that with the increase to this office establishment recently sanctioned all arrears will be cleared, and punctual submission of returns, etc., be secured.

2. In connection with the statements herewith submitted, it has occurred to me that at least for the first six months of the year a much simpler form would place the Government in possession of condensed information in respect to outlay as compared with grants. The form I refer to is annexed, and I may mention that it is used to supply information monthly to the Accountant General, Madras, and to the Accountant General, Public Works Department.

3. I believe I am right in supposing that statements of the kind referred to are of little use till the last quarter of the year, for it is only about that time of year that the variations between anticipated and actual expenditure can be judged of. If this be so, and if the statements hitherto submitted have served no useful purpose, the Government perhaps will agree to my proposal that a statement in the annexed form should be substituted for those hitherto furnished. Of course this office would promptly furnish detailed information on any occasion the Government would desire such information to allow of changes in the allotment of funds being made.

Proceedings of the Madras Government, Public Works Department, 18th November 1873.
