Proceedings of the Madras Government, Public Works Department, 16th December 1873.

SUBMITTED for the information of Government.

(Signed) J. MULLINS, Lieut.-Colonel, R.E.,
Chief Engineer for Irrigation.

No. 277. ORDER THEREON, 16th December 1873, No. 3,029.

IRRIGATION, No. 16.

THE Statement of Irrigation, in the Cuddapah District, under the Madras Irrigation and Canal Company's Canal in 1872-73 shows that on 966·75 acres of ordinary irrigation, out of a total in this class of 2,140·34 acres, the penal, or double, rate of Rupees 12 an acre was charged, in consequence of water having been taken by the ryots without making the application required by the rules; and though, after the Jummahbundy, Rupees 4,378 out of the penalty of Rupees 5,800 were remitted, the fact of so large an area having been irregularly irrigated appears to indicate that, either the rules are very imperfectly understood by the ryots, or that the difficulties of getting applications for water attended to are very great. As the greater part of the penalty inflicted was ultimately remitted, the subject has probably engaged the special attention of the Collector of Cuddapah, who should report, through the Board of Revenue, to what causes the irregular irrigation is attributable, and also what steps have been taken to prevent, or render improbable, such irregularity in the future.

Colonel, R.E.
Secretary to Government.

To the Revenue Department.
" Board of Revenue.
" Chief Engineer and Manager of the Madras Irrigation and Canal Company.
" Chief Engineer for Irrigation.
