Proceedings of the Madras Government, Public Works Department, 17th December 1873.

No. 297. Read the following letter from J. W. RUNDALL, Esq., District Engineer, Tinnevelly, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Palamcottah, 28th November 1873, No. 135 :—

I HAVE the honour to request that fixed travelling allowance at half the usual rate may be passed to Lieutenant Boddy, R.E., Assistant Engineer, during the time he may be halting at either Comorin or Muttam.

2. Although eventually he will receive charge of a portion of the Nangud neri Taluq, yet at present he will be exclusively engaged on the light-houses until the work is fairly started, and there will therefore be no necessity for his travelling a greater distance than five miles from his head-quarters (Comorin) except when visiting Muttam. He will thus be probably half the month at head-quarters and entitled to no travelling allowance.

3. Under these circumstances, and considering that Lieutenant Boddy will be employed in a very out-of-the-way place, will have to send a long distance for supplies, and will have to maintain tents, though not always carriage for them, I would request that half travelling allowance may be passed for those days he is halting at Comorin or Muttam and not maintaining carriage for tents.

No. 298. ORDER THEREON, 17th December 1873, No. 3,040.
