Read the following letter:—

No. 64. From Colonel H. K. BURNE, Secretary to the Government of India, Military Department, to Colonel A. C. SILVER, Secretary to Government, Military Department, Madras; dated Simla, 13th October 1873, No. 380.

With reference to your letter No. 1336 of the 18th April 1873, and previous correspondence on the subject of the water supply at Bangalore, I am directed to invite the attention of the Right Honorable the Governor in Council to paragraph 3 of military department letter, No. 32 of the 2nd September 1872, urging the necessity of an improved scheme for gathering and distributing good water both to the town and cantonment.

2. I am to remark that this is the more necessary, as the Sanitary Commissioner with the Government of India still considers that the Ulsoor Tank is fed from a filthy gathering ground, and that the water must therefore be dangerous, while there is a strong objection to passing waters of inferior quality through the same pipes as good water, which the Dhobies' well water is supposed to be.

No. 65. ORDER THEREON, 5th November 1873, No. 3667.

Communicated to departments concerned, with reference to Proceedings of Government, 21st September 1872, No. 3022, and in view to the subject receiving early consideration.
