| Dated 7 — 1 — | | 1873. |

***Not to be folded or roughly handled***

Read the following papers:—

No. 64. From the District Engineer, Chingleput, to the Secretary to Government, Public Works Department, dated Madras, 5th December 1872, No. 22.

I HAVE the honour to request that the Government will be pleased to authorize the Controller of Public Works Accounts to pass pay for October and to the 13th ultimo to a Moochee and two Lascars in the office of the Executive Engineer, East Coast Canal.

2. The total grant for this office was in G. O., No. 1,586, of 1st July 1872, fixed at Rupees 168, but no details were given, and as salary bills go direct from Range Officers to the Controller, I did not observe that any change was made. Mr. Harington was misled by the final clause of G. O., No. 1,586, of 1st July 1872, and understood that he had authority to retain his full establishment till the new organization was enforced, and did so till the Controller definitively informed him that no allowance existed for the above mentioned persons.

---

No. 65. From the Controller of Public Works Accounts, to the Secretary to Government, Public Works Department, dated Fort St. George, 9th December 1872, No. 2,112.-A.

I HAVE the honour, with reference to your endorsement of the 7th instant on the enclosed letter from the District Engineer, Chingleput, to state that full particulars of the details of the new office establishment for the Eastern Coast Canal Range were furnished to Government in the letter from this office, embodied in G. O., No. 1,908, dated 12th August 1872, of which it has been ascertained that eight copies were supplied to Colonel Moberly, as Superintending Engineer of the 4th Division, for communication to the several Range Officers under his orders.

1 Original letter, No. 22, dated 5th December 1872, from District Engineer, Chingleput.

2. The terms of paragraph 3 of the orders of Government, No. 1,586, dated 1st July 1872, are clear and precise; and if Mr. Harington was furnished by the Superintending Engineer with the revised scale of establishment sanctioned for the Eastern Coast Canal Range Office, I cannot see what further instructions Mr. Harington required to give effect to those orders.

3. In accordance with paragraph 3 of the order of the 1st July 1872, this office has duly arranged for carrying out the sanctioned re-arrangement of ranges, and the required alteration in the accounts. It was not understood that after details of the revised establishments for all ranges had been circulated by *Government* to the officers concerned, the intervention of this office was called for.

*Proceedings of the Madras Government, Public Works Department, 7th January 1873.*

No. 66. ORDER THEREON, 7th January 1873, No. 33.

ESTABLISHMENT, No. 7.

His Excellency in Council authorizes the Controller of Public Works Accounts to pass the salaries of the Moochee* and two Lascars†, members of the late establishment of the East Coast Canal, up to the 13th November 1872.

* Rupees 10.
† ,, 7 each.
