*Proceedings of the Madras Government, Public Works Department,
5th February 1873.*

No. 90. Read the following endorsement of the Consulting Engineer for Railways, dated Madras, 17th January 1873, No. 30:—
From the Agent and Manager of the Carnatic Railway Company (Limited), to the Consulting Engineer for Railways, dated Madras, 17th January 1873 No. 16:—

I HAVE the honour to state that in the brief report of earnings, expenses, and profits submitted in my letter, No. 10, dated the 14th instant, the amount of loss attributable to the flood was stated, in paragraphs 2 and 6 of the letter referred to, as Rupees 5,800 in error. This, you will observe, should have been Rupees 5,464 only. This was occasioned by my having inadvertently added the saving in the Locomotive Department to the extra cost in the Permanent Way Department and the loss in the Traffic Department.

2. I request, therefore, that you will be good enough to take note of this mistake and correct the figures in the two paragraphs of my report referred to accordingly.

3. In these circumstances the profits for the half-year but for the accident of the flood would have been about Rupees 7,300 only, and not Rupees 7,600 as stated.

SUBMITTED to Government in continuation of this office letter, No. 23, dated 15th January 1873.
