Dated 7 — 1 — 1873.

Not to be folded or roughly handled

No. 80. Read the following endorsement of the Chief Engineer for Irrigation, dated Fort St. George, 7th December 1872, No. 308:—

From the Sub-Engineer in charge of the Wallajah Range, to the Superintending Engineer, 4th Division, dated Cauveripauk, 2nd December 1872, No. 410.

I HAVE the honour to report, for your information, that over thirty tanks have breached in the Wallajah Taluq. Seventy-two feet of the northern calingulah of Myhendravaddy Tank has been carried away, and the south channel badly breached. Cauveripauk bund has slipped in three portions, one slip bad but not dangerous. Preventive measures are being adopted. The water has now gone down three feet below high reserve level. Weather still threatening. Sholinghur Tank all right. Peroonconjee slightly breached. Poiney Anicut injured, as also Paulaur. I go there as soon as possible. Breach tanks lie in every direction. Already visited ten.

No. 15.

COPY forwarded to the Chief Engineer for Irrigation for information.
