*Proceedings of the Madras Government, Public Works Department,
18th February 1873.*

No. 426. Read the following letter from the District Engineer, Godavery, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 23rd January 1873, No. 577:—

I HAVE the honour to forward herewith copy of a letter from the Assistant Engineer in charge of the No. 4 or Ellore Range, relative to the intimation from the Controller to the effect that he can only pass travelling allowance to officers according to their substantive rank in the new department; not with any reference to allowances to which they were entitled before the 1st December last.

2. Lieutenant Dorward will certainly have to suffer in a pecuniary point of view under the Controller's ruling, but as I do not think that the Government intend that present incumbents should lose by the carrying out of the new scheme, I trust that the matter now brought to notice will receive favourable consideration.

No. 427. ORDER THEREON, 18th February 1873, No. 542.

ESTABLISHMENT, No. 35.

It will be intimated to the Controller of Public Works Accounts that the rate of travelling allowance which should be passed to officers is that of the substantive rank held by them on the re-organization of the department, and not that of the lower grade to which, owing to limitation of numbers in each grade, they may have been appointed.

From The Officer in Charge

To The District Engineer
Godavari District

Sir,

The Controller of P.W. Accounts has informed me that he can only pass travelling allowances to Officers according to their substantive rank in the new Department, notwithstanding reference to the allowances to which they were entitled before the 1st December last.

By this arrangement, I have been made to suffer an immediate pecuniary loss in addition to degradation which I believe is not the intention of Government. I am aware that travelling allowances are not to be regarded as an addition to salary, and do not look upon them as such; but this has nothing to do with the present reference. For nearly two years, I have drawn the allowances of an Executive Engineer, and am now cut down to those of an Assistant or in other words I lose Rs 1 per diem each day that I travel. Please ascertain from the Chief Engineer whether this is the wish of the Government.

I have &c &c
