*Proceedings of the Madras Government, Public Works Department,
24th February 1873.*

No. 534. Read the following letter from the Superintendent of Stationery, to the Secretary to Government, Public Works Department, dated Fort St. George, 18th February 1873, No. 108 —

In forwarding the enclosed emergent supplemental indent of the District Engineer, Bangalore, for your sanction and approval, I have the honour to point out that the indent itself is informal inasmuch as it does not give the particulars of expenditure required in the form of indent published in page 374 of *Fort St. George Gazette* 5th Nov. 1872.

2. The indent for stationery for 1873-74 is now in the office, and will be complied with before the close of the present month. I consider it necessary, however, to bring to your notice that stationery articles were issued to the Executive Engineer at Bangalore in full of indent received in this office for 1872-73, and that the present demand for the remaining portion of the current year (six weeks) corresponds, and, in some instances, exceeds the supply heretofore given for the whole year.

3. The supply of red ink glasses to public offices has been discontinued, see Notification in page 1,304 of *Fort St. George Gazette* of 12th June 1860.

4. *Ink Bottles with Stand.* Wooden inkstand with two glasses will be supplied to contain black and red ink, respectively.

No. 535. ORDER THEREON, 24th February 1873, No. 594.

ACCOUNT, No. 48

COMMUNICATED to the District Engineer, Bangalore, for full explanation of the necessity for the increased supply, especially with reference to the remarks in paragraph 2. A revised indent in the form prescribed should be submitted. As the indent for 1873-74 will be complied with in this month no inconvenience will, it is presumed, be felt
