With reference to my letter* to the address of the Chief Secretary to Government, relative to the re-construction of the chimney attached to the mother liquor pots of the Gun Powder Manufactory and the order† of Government thereon, I have the honour to request you will be so good as to favour me with the instructions of Government as to the source from which the money required for the work is to be obtained.

2. No provision has been made in the Budget Estimate of this Department for such expenditure, and an application being made for advances to the District Engineer, he has replied as follows:—
* Docket No. 3,321, dated 11th February 1873. "the G. O., No. 252, dated 21st January 1873, in the Military Department, authorizes the re-building of the chimney by the Ordnance Department, but no funds were allotted in G. O., No. 189, dated 27th January 1873, Public Works Department, in which the order of Government in the Military Department above referred to was simply ordered to be recorded.

"The undersigned is therefore unable to make the advance required by the Superintendent, Gun Powder Manufactory."

3. But as the expenditure is one which ought to fall against the Public Works Department, I beg to suggest that the necessary orders may be issued to that Department for the supply of the funds required.

4. The estimated amount is only Rupees 160, which will be adjusted on completion of the work by submission of a bill to the District Engineer, who will use it as a voucher in support of the amount advanced.
