*Proceedings of the Madras Government, Public Works Department,
19th March 1873.*

No. 469. Read the following letter from the District Engineer, Kistna District, to the Secretary to Government, Public Works Department, dated Camp at Masulipatam, 22nd February 1873, No. 37:—

THERE being a vacancy for an Overseer in the district, and the Principal, Civil Engineering College, having informed me that he is not aware of any passed candidates being unemployed, I have the honour to request sanction to the appointment of T. Raghavulu Naidoo as Taluq Overseer.

2. T. Raghavulu Naidoo was first employed in the department as Apprentice in 1860, and from that time till 1864 was employed on various duties in-door and out on a salary rising from 7 to 13 Rupees a month. The organization of the Department Public Works having been altered in 1863 it was not possible to provide him, after his apprenticeship, with a permanent post, and he was consequently employed as a Draughtsman and Surveyor from 1864 to 1867 on a salary varying from 20 to 40 Rupees per mensem. From October 1867 to January 1868 he was employed on special duty under Captain C. J. Smith, R. E., on a salary of Rupees 60. From February 1868 to March 1870 he held the post of Draughtsman in a Range Office on Rupees 40. He then acted as Taluq Overseer till March 1871; and since that time he has been employed as Surveyor and Draughtsman on the Delta Project works on a salary varying from 40 to 75 Rupees a month. For two months he also was granted travelling allowance in addition to his pay of Rupees 60 per mensem.

3. His past services entitle him, I think, to some consideration, especially as he entered the department as Apprentice with the hope of getting a permanent appointment without passing any examination, and as he bears a very good character and has been highly recommended to me, I beg to recommend that he may be given the appointment of Taluq Overseer, 3rd Grade.
