*Proceedings of the Madras Government, Public Works Department,
19th March 1873.*

No. 475. Read the following letter from the District Engineer, Kistna District, to the Secretary to Government, Public Works Department, dated Camp at Bapatla, 14th February 1873, No. 33 :—

I HAVE the honour to forward herewith for sanction estimate, amounting to Rupees 350, for surveying margins of the Kistna river from Bezwarah to the sea.

2. I find that the out-door work of the survey of river margins in Eastern Delta has already been done, the pay of the Surveyors, etc., having been charged to the Eastern Delta Project Survey, as the two Surveys were intimately connected; no allotment is therefore required for this part of the survey. On this estimate being sanctioned a transfer of expenditure from one head to the other can be made in the accounts.

3. The survey in the Western Delta has not yet been commenced, owing to the difficulty of procuring Surveyors while the field-work of the Eastern Delta project is in progress. I hope to be able to put a Surveyor on the work from the 1st of next month, and as his pay for that month will not be due till April 1873, I have only to request that the amount of estimate for surveying the Western Delta, Rupees 245, may be allotted early next year.

No. 476. ORDER THEREON, 19th March 1873, No. 868.

IRRIGATION, No. 21.

THE estimate, Rupees 350, of the cost of surveying the margins of the Kistna in the delta is sanctioned, the charge being met from the provision for temporary establishments.

2. It is observed that Rupees 105 will be chargeable to this head in the current year to the relief of the charge on account of surveys debitable to Loan Funds, and that Rupees 245 will be required in 1873-74.
