*Proceedings of the Madras Government, Public Works Department,
20th March 1873.*

No. 496. Read the following papers:—

From the Superintending Engineer, 5th Division, to the Secretary to Government, Public Works Department, dated Salem, 5th September 1872, No. 113.

I HAVE the honour to forward, for the sanction of Government from the Reserve under Civil Buildings, Provincial, an estimate of Rupees 1,760, accompanied by a plan and specification, for improving the present Deputy Jailer's quarters in the Central Jail at Salem.

2. In G. O. No. 101 of 15th December 1871, an estimate of Rupees 2,870 was sanctioned for new quarters for the Deputy Jailer, and the amount was allotted in the current year's Provincial Budget; but as it was afterwards considered by the Inspector-General of Jails that the present quarters could be repaired and improved at a less cost, and as funds were more urgently required for the Chief Constable's quarters, etc., in the Jail, the said allotment was transferred to these works in G. O. No. 1,370 of 1st June 1872.

3. By the present arrangement of improving the existing quarters in lieu of constructing new ones, a saving of Rupees 1,110 is to be effected. After the estimate was countersigned by the Inspector-General of Jails, the amount has been increased by 100 Rupees to give additional height to the new room which was too low as first designed.

4. Should, however, the Government find it inconvenient to spare the amount from the Reserve, I have no alternative but to suggest the work being deferred till the ensuing official year.

No. 496 A. From the Inspecting Engineer for Civil and Military Buildings, to the Chief Engineer, Department Public Works, dated Chepauk, 24th February 1873, No. 164.

I HAVE the honour to forward an estimate of Rupees 1,600, accompanied by a plan and specification, for improving the Deputy Jailer's quarters in the Central Jail at Salem, revised in accordance with your memorandum No. 105, dated 16th

September 1872, and to state that the plan has met with the approval of the Inspector-General of Jails.

2. I may mention that the revised estimate also provides for raising the floor of the entire building one foot, as the present floor is on the ground level.

3. The original sanctioned plan is herewith sent, as required by you in the above quoted memorandum.

No. 497. ORDER THEREON, 20th March 1873, No. 879.

CIVIL WORKS, No. 23.

His Excellency the Governor in Council resolves to return the plan and estimate for improvements to the Deputy Jailer's quarters in the Salem Central Jail, and to draw the attention of the

Proceedings of the Madras Government, Public Works Department,
20th March 1873.

Inspecting Engineer for Buildings to paragraph 7 of the letter from the Superintending Engineer, 5th Division, recorded in G. O. No. 1,370 of 1st June 1872, from which it appears that all that is needed is the repair of the house occupied by the Deputy Jailer; whereas the papers in question allow for additions raising the scale of accommodation almost to that allowed for a Jailer.

The addition to the quarters
of the deputy Jailer seem
to me unnecessary -
The proposal was that
the house should be put in
thorough repair -
Two large rooms with
bath rooms, kitchen & out-
houses seem to me sufficient
for a man in the position of a dy. Jailer -

I would ask the Inspector
General to state whether the
additions are recommended
