There are no doubt
a few more
things in the
dear Sir
As Tools & Plant
are brought in
usually on the 1st of the month
I think it would be
desirable to
clap the valves under
that head & to
the effect of such classification
being adopted,
and it being hereafter
determined to use
the valves as a

particular as work,
there would be
a difficult-ⁱⁿ adjusting
its value. I would
therefore suggest for
your consideration
that the cost of the
values be added to
the charges of stock
with the assets of the
Presidential Range. It
would be increasing
to affect adjustments
which may hereafter

be necessary - No allota-
ment in this case would
be required -

Yours faithfully
J. Hock
