No. 254.

No. 401. *Note by the Chief Engineer for Irrigation.*

THE District Engineer, Godavery, applies for an additional grant of Rupees 1,000 for Minor New Works, Agricultural, on the ground that he was not aware that two items which had been sanctioned by Government had to be met from the allotments placed at his disposal. The first, Rupees 438, mentioned by him had, it is to be observed, a special allotment from the Reserve made for it in G.O., No. 170, dated 25th July 1873; and for the second, Rupees 1,365, a special allotment from the Minor New Works Grant was made in this office memorandum, No. 876, dated 16th December last. The usual grant under this head for the district is Rupees 6,000, and Rupees 6,803 have already been made available, although, unless specially authorized, Minor New Works in the Eastern and Western Deltas are not carried out from this grant, there being provision for expenditure of this kind in the completion estimates. The reasons given by the District Engineer for exceeding the allotments are not, therefore, admissible. The sum of Rupees 1,000 asked for may be granted from the Reserve, which has a

* Rupees 2,000.

† " 1,000.

small balance, in consequence of the surrenders made by the District Engineers of Tinnevely* and Kistna.†

2. With regard to the excess expenditure on Repairs Agricultural, the District Engineer's explanations are equally unsatisfactory. In a memorandum, dated 21st January, Colonel Fischer applied for the balance, Rupees 7,500, of the usual grant, and at the same time asked whether more money would be available. The amount asked for was placed at his disposal in a memorandum, No. 93, dated 23rd idem, and he was informed in a foot note, as also in a separate memorandum No. 98 of the same date, that no more funds were available. He now applies for Rupees 11,500, and there are no savings from which the excess expenditure can be met.

30th March 1874. *Chief Engineer for Irrigation.*

No. 402. ORDER THEREON, 29th April 1874, No. 1,106.

IRRIGATION, No. 25.

In accordance with the recommendation of the Chief Engineer for Irrigation, Rupees 1,000 are placed at the disposal of the District Engineer, Godavery, from the Reserve for the adjustment of expenditure, in excess of the allotments made on Minor New Works, Agricultural.

2. Colonel Fischer's proceedings in exceeding the allotments made under this head, as also under Repairs Agricultural were extremely irregular, and his explanations are altogether unsatisfactory. For Minor New Works all the money he had asked for was granted, and for excess expenditure on Repairs he had no justification whatever.
