*Proceedings of the Madras Government, Public Works Department,
29th April 1874.*

No. 408. Read the following letter from Lieutenant-Colonel J. F. FISCHER, R.E., District Engineer, Godavery, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Dowlaishweram, 17th March 1874, No. 3,750:—

ADVERTING to the Proceedings of Government of the 25th February last, No. 477, authorizing me to commence the Polarum embankment work and to report what amount can be spent on it before the 31st of this month, I have the honour to state that the Sub-Engineer in charge of the Central Delta informs me that all the buntadars who had been at work in his range and even the daily coolies left the Central for the Western Delta in consequence of the abeyance of all Agricultural Repairs for want of allotments. To get them back will take some time, and although the work be put in hand at once, no payment can be made towards it till April.

2. Under these circumstances, an appropriation of funds in this year will not be necessary, but it is hoped that as much as can be spared for it will be set aside in the ensuing official year.

3. I beg to add, for the information of Government, that Mr. Sub-Engineer Ellis has given orders for the immediate commencement of the bank.

No. 409. ORDER THEREON, 29th April 1874, No. 1,110.

IRRIGATION, No. 26.

RECORDED. Application will be made by the District Engineer for such funds as he may require to meet expenditure

up to the time when the freshes and rains will cause a suspension of the work, and an allotment of such amount as may be available will be made after the incomplete works of 1873-74 have been provided for. In the meantime the embankment can be gone on with, care being taken to construct those portions first which will have an immediately beneficial effect.

2. It is observed from another letter of Colonel Fischer's that the full

MADRAS

SIR,

According to the Proceedings of Government of the 25th February last, No. 77: authorizing me to commence the Polarum Embankment work and to report what amount can be spent on it before the 31st of this month, I have the honor to state that the Sub Engineer in charge of the Central Delta informs me that all the Plantation, who had been at work in his Range, and even the daily coolies left the Central, for the Western Delta, in consequence of the abeyance of all Agricultural repairs for want of allotments. To get them back, will take some time, and altho the work has put in hand at once, no payment can be made towards it till April.

2. Under these circumstances an appropriation of funds in this year will not be necessary, but it is hoped that as much as can be spared for it will be set aside in the ensuing financial year.

3. I beg to add for the information of Government that Mr. Sub Engineer Ellis has
