*Proceedings of the Madras Government, Public Works Department,
30th April 1874.*

No. 461. Read the following letter from Lieut.-Colonel W. T. F. FAREWELL, Inspecting Engineer for Ports and Communications, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Chepauk, 28th March 1874, No. 760-77:—

WITH reference to paragraph 5 of G. O., No. 2,975, dated 16th December 1872, sanctioning the work recommended by the Pier Committee for protecting and strengthening the Madras Pier to be taken in hand after the restoration of the pier had been successfully completed, which having been accomplished the Committee met to reconsider the question of carrying out these operations; and, under authority from them, I have the honour to submit, for the information of Government, their Proceedings dated 25th March 1874.

Proceedings of the Madras Pier Committee, dated Madras, 25th March 1874.

As the Committee understand that early measures are to be taken with the view of constructing a safe anchorage at Madras which will of course entirely protect the pier, they deem it inadvisable that any further expenditure be incurred in strengthening or protecting it as originally proposed by them. The only work that now appears to them necessary is that the northern piles of the T head which have sunk should be screwed home and lengthened as required; and the repairs, *i.e.*, tightening, replacing where necessary, and repairing all the existing braces, etc., ordered by Mr. Dalrymple when Master Attendant should be completed as early as possible.

Resolved that the above be communicated to Government.

(Signed) J. H. M. SHAW-STEWART, Lieut.-Colonel, R.E.,
Consulting Engineer for Railways.

Inspecting Engineer for Ports and Communications.

No. 462. ORDER THEREON, 30th April 1874, No. 1,136.

CIVIL WORKS, No. 53.

His Excellency the Governor in Council quite concurs with the Pier Committee that further strengthening or protecting of the Madras Pier seems unnecessary if that structure is to be sheltered by a breakwater or close harbour. And he resolves to tender the Committee his thanks for its services, and to request the Agent and Manager of the Madras Railway to make the services of Mr. Going available for further service on it if necessary and if agreeable to that gentleman; Lieutenant-Colonel Roberts replacing Lieutenant-Colonel Farewell, ex-officio.

Inspecting Engineer's Office for
Ports & Communications.

Chepauk, Madras.

20th March 1874.

From The Inspecting Engineer for
Ports & Communications.

To The Chief Engineer and
Secretary to Government.
Public Works Department.

Sir,
With reference to para 5 of
G. O. No. 2975 dated 16th December 1872,
sanctioning the work recommended
by the Pier Committee for pro-
tecting and strengthening the Madras
Pier to be taken in hand after
the restoration of the Pier had
been successfully completed, which
having been accomplished, the
Committee met to reconsider
the question of carrying out these
operations, and, under authority
from them, I have the honor
to submit for the information
of Government their Proceedings
dated 25th March 1874.

Enclosure

Proceedings
of 25 March 74

I

I have the honor to be,
Sir,

Your most Obedt Servt.

Wm. A. Lusk, Colonel
Inspecting Engineer for
Posts & Communications.

and I am, Sir, with
the most respectful
regards to all,
Yours very truly,
Wm. A. Lusk
