Proceedings of the Madras Government, Public Works Department,
17th January 1874.

Read the following papers :—

No. 238. From T. MOSS, Esq., Officiating Controller of Public Works Accounts, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Fort St. George, 15th December 1873, No. 6,051.

I HAVE the honour to forward the Regular Estimates (two) for the year 1873-74, one being for the Irrigation Branch, and the other for the Imperial Building Branch.

2. Estimates of receipts are also forwarded, together with a "*Note*" giving particulars of outlay already incurred, etc.

3. There has been some delay in the submission of these estimates which I regret.

No. 239. *Note by the Officiating Controller of Public Works Accounts on the Regular Estimate for* 1873-74.

IMPERIAL.

1. *Military.*—Under this head it is probable that the Budget grants for *Works* and *Repairs* will be fully utilized. During the first half of the year the expenditure has been on *Works* Rupees 1,08,813, and on *Repairs* Rupees 1,35,356.

2. *Civil Buildings.*—The Budget grants have already been modified, that for *works* being reduced to add to the grant for Repairs, and to meet the transfer referred to in G. O., No. 2,340, of the 20th September last. In the first half of the year (to end of September) the outlay on the telegraph office at Madras was Rupees 8,303 only, and it seems doubtful whether more than half of the original provision (Rupees 50,000) for it will be utilized. Rs. 30,000, however, had better be reserved for it. The telegraph office at Bellary is apparently completed by an outlay during the year of Rupees 6,827, and, therefore, Rupees 5,000 of the present grant for *Works* might be surrendered if required by the Government of India.

IRRIGATION.

3. *Extraordinary.*—Judging from the expenditure (Rs. 2,18,995) during the first six months of the year, the Budget grant (Rupees 6,61,300) appears excessive; but as more work is usually done during the last half of the year, and as all officers have been urged to utilize funds to the utmost, it will probably be found practicable to make use of the amount (Rupees 6 lakhs) entered in the Regular Estimate. Under Tools and Plant there may be a slight excess, but it does not seem worthwhile to alter the Budget grant.

4. *Capital Ordinary.*—The outlay on works during the first six months of the year has been a little over 1¼ lakhs, but for the reason above stated it is thought desirable to retain 3 lakhs, which amount has accordingly been entered.

5. *Revenue.*—The full Budget provision of Rupees 13,60,000 is likely to be utilized under this head, and therefore no change is proposed. From the funds available under the last two heads (*Capital Ordinary* and *Revenue*) expenditure is incurred on works and repairs which are classed as "*Ordinary Agricultural works for which no Capital and Revenue Account is kept,*" and such expenditure has been taken into account in drawing up the Regular Estimate. But the distinction above-mentioned, viz., the opening of a head not shown in the Budget

which

Estimate, causes confusion, and as it is believed that all, or almost all, tanks, etc., will eventually fall into groups to be dealt with as connected irrigation projects, it seems desirable to consider whether all expenditure on works and repairs incurred from Ordinary Imperial funds might not be classed under the two heads, *Capital Ordinary* and *Revenue*. The whole subject of classification and Irrigation accounts is however under consideration by the Chief Engineer, preparatory to proposals being submitted to Government.

ESTABLISHMENT.

6. Exclusive of the provision for the Civil Engineering College transferred to the Civil Budget, the estimate for Establishment amounts to Rupees 21,14,300, but the grants from the various heads of service aggregate Rupees 19,98,800 only as per the following detail:—

		Rs.
Irrigation	Extraordinary	2,01,500
Do.	Ordinary	5,12,000
Imperial	Military	1,30,000
	Civil Buildings	24,000
Provincial		24,000
Local		9,27,300
	Total...	19,98,800

7. The above shows a short credit of Rupees 1,15,500, but as the cost of establishment is not likely to exceed Rupees 20,50,000, it will be sufficient to provide Rupees 52,000, which sum might be given from *Provincial* as from that source the contribution towards Establishment has been at the rate of only 20 per cent., while the average rate from other funds has been 29 per cent. As certain proposals have recently been submitted for the distribution of establishment charges over the various heads of service on a somewhat different principle to that now recognized, it has not been thought desirable to disturb the present allotments. It may be mentioned that no portion of the cost of the Accounts Branch of the Department is at present charged to "*Extraordinary*," and that as regards general direction, this head ("Extraordinary") is debited only with the portion making up the salary, etc., of the Chief Engineer for Irrigation, an arrangement which will probably be altered.

TOOLS AND PLANT.

8. The total provision under this head is less than the actual outlay during the past year, exclusive of the debit in that year on account of the Godavery floating stock. As the mode of adjustment during the current year is to be different to that hitherto followed (*vide* Government Order, No. 2,094, of the 22nd August 1873), and as the results under the modified arrangement are not sufficiently developed at present to allow of an opinion being formed, the Budget allotments have not been altered.

GUARANTEED RAILWAY.

9. The outlay during the first half of the year has been as follows against the Budget grants:—

	Outlay during half-year.	Budget grant.
	Rs.	Rs.
Land	29,800	3,47,300
Establishment	41,050	89,700

10. No opinion as to the probable total outlay on account of land can be given, but for Establishment it is thought that there will be a saving of about Rupees 6,000.

11. In addition to the outlay above shown payments have been made, aggregating Rupees 6,08,649, on account of freight on materials sold to Hyderabad, for which purpose a special grant was made of Rupees 6,62,000.

MADRAS IRRIGATION AND CANAL COMPANY.

12. The outlay during the first six months has been Rupees 1,044 for *land* against the Budget grant of Rupees 8,000, and Rupees 2,091 for *Establishment* against the Budget grant of Rupees 6,000. Under Establishment there will probably be a saving of Rupees 500, and for land it will perhaps be sufficient to reserve Rupees 6,000.

RECEIPTS.

13. The receipts are likely to be in excess of the estimates, and do not therefore call for particular notice except perhaps in respect to *grass-rents*, under which head this department is probably realizing to some extent receipts hitherto collected by Local Civil Officers.

FORT ST. GEORGE,
15*th December* 1873.

No. 239A. From T. MOSS, Esq., Officiating Controller of Public Works Accounts, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Madras, 19th December 1873, No. 6,164.

In case the Government should desire information as to the works not commenced, the postponement of which would reduce the sanctioned outlay during the current year from Ordinary Imperial Funds, and so meet the requirement of the Government of India, (*vide* Financial Department Resolution, No. 2,997, of the 14th November 1873,) I have the honour to forward herewith a list of the Budget Works which were not commenced to the end of October last. The list does not include those works the grants for which have been withdrawn.

2. Probably District Engineers have been required to submit information regarding works, etc., which may be postponed, and if so, their reports will refer to a later period and therefore be more useful than the present report, which is based on information afforded in the accounts received in this office.

To
The Secretary to Government
Public Works Department
Fort Saint George

Sir,

Encls. 3

I have the honor to forward the Regular Estimates (two) for the year 1874/75 one being for the Irrigation Branch and the other for the Imperial Building Branch..

2. Estimates of Receipts are also forwarded, together with a "note" giving particulars of Outlay already incurred, &c.

3. There has been some delay in the submission of these Estimates which..

which I regret.

I have the honor to be.
Sir
Your most obedient Servant.

Offg Controller of P.W. Accounts

Noting the Offg Controller of Public Works Accounts on the Regular Estimate for 1873/74

Imperial

Military — Under this head it is probable that the Budget grants for Works and Repairs will be fully utilized. During the first half of the year the Expenditure has been on Works Rupees 408,813 and on Repairs Rupees 135,356.

Civil Buildings — The budget grants have already been modified, that for Works being reduced to add to the grant for Repairs, and to meet the transfer referred to in Government Order No 2348 of the 30th September last. In the first half of the year (to end of September) the outlay on the Telegraph Office, at Madras was Rupees 8303 only, and it seems doubtful whether more than half of the Original provision (Rs 50,000) for it, will be utilized. Rupees 30,000 however had better be reserved for it. The Telegraph Office, at Bellary is apparently completed by an outlay, during the year, of Rs 8827 and is therefore Rs 5,000 of the present grant for Works might be surrendered if required by the Government of India.

Irrigation

Transfer shown in margin [illegible]

The Secretary to Government will be requested to arrange to appear before the Committee.

The whole has been discussed by Board of this Department, and a Memorandum of Points for detailed discussion by Offg Controller, Public Works Accounts.

H Scott

Irrigation

Esc Extraordinary

3 Judging from the Expenditure (Rs. 2,18,995) during the first six months of the year, the budget grant (Rupees 6,61,300) appears Excessive, but as more work is usually done during the last half of the year and as all Officers have been urged to utilize funds to the utmost, it will probably be found practicable to make use of the amount (Rupees 6 Lakhs) entered in the Regular Estimate. Under Tools and Plant there may be a slight excess, but it does not seem worth while to alter the budget grant.

Capital Ordinary

4 The outlay on works during the first 6 months of the year has been a little over 1½ lakhs, but for the reason above stated it is thought desirable to retain 3 lakhs, which amount has accordingly been entered.

Revenue

5 The full budget provision of Rupees 136000 is likely to be utilized under this head and therefore no change is proposed.

From the funds available under the last two heads (Capital Ordinary and Revenue) Expenditure is incurred on Works and Repairs which are classed as Ordinary Agricultural Works for which no capital and Revenue account is kept and such Expenditure has been taken into account in drawing up the Regular Estimate. But the distinction above mentioned, namely the opening of a head not shown in the Budget Estimate, caused confusion, and as it is believed that all, or almost all, such works will eventually fall into groups to be dealt with as connected Irrigation projects, it seemed desirable to consider whether all expenditure on Works and Repairs incurred from Ordinary Imperial funds, might not be classed under the two heads Capital Ordinary and Revenue. The whole subject of classification and Irrigation accounts is however under consideration by the Chief Engineer, preparatory to proposals being submitted to Government.

Establishment

6 Exclusive of the provision for the Civil Engineering College transferred to the Civil Budget, the Estimate for Establishment amounts to Rupees 21,14,300 but the grants from the various heads of Service aggregate Rupees 19,98,800 only, as per the following detail

Irrigation	Esc Extraordinary	201500
"	Ordinary	512000
Imperial	Military	130000
	Civil Buildings	24000
Provincial		24000
Local		927300
	Total Rupees	19,98800

This shows a short credit of Rupees 115500, but as the cost of Establishment is not likely to exceed Rupees 20,50000 it will be

be sufficient to provide Rs 62,000 which sum might be given from Provincial, as from that source the contribution towards Establishment has been at the rate of nearly 20 per cent while the average rate from other Funds has been 29 per Cent. As to certain proposals to have recently been submitted for the distribution of Establishment charges over the various heads of Service on a somewhat different principle to that now recognised, it has not been thought desirable to disturb the present allotments. It may be mentioned that no portion of the cost of the accounts Branch of the Department is at present charged to Extraordinary and that as regards general Direction, this head (Extraordinary) is debited only with the portion making up the Salary &c of the Chief Engineer for Irrigation - an arrangement which will probably be altered.

Tools and Plant.

8 The total provision under this head is less than the actual outlay during the past year exclusive of the debit in that year on account of the Godavery floating stock - As the mode of adjustment during the current year is to be different to that hitherto followed (Vide Government Order No 2096 of the 22nd August 1873) and as the results under the modified arrangement are not sufficiently developed at present to allow of an opinion being formed of the budget allotments have not been altered.

Guaranteed Railway.

9 The outlay during the first half of the year has been as follows against the budget grants

	Outlay during half year	Budget grant
Land	29500	34730
Establishment	41050	89700

10 No opinion as to the probable total outlays on account of Lands can be given, but for Establishment it is thought that there will be a Saving of about Rs 6000 -

11 In addition to the outlay above shown payments have been made aggregating Rupees 6,08,649 on account of freight on materials sold to Hyderabad for which purpose a Special grant was made of Rupees 662000

Madras Irrigation and Canal Company.

12 The outlay during the first six months has been Rupees 1044 for Land against the Budget grant of Rs 8000 - and Rs 2091 - for Establishment against the Budget grant of Rs 6000 - Under Establishment

Establishment there will probably be a Saving of Rupees 500 — and for Land, it will perhaps be sufficient to reserve Rupees 6000 —

Receipts

The Receipts are likely to be in excess of the Estimates and do not therefore call for particular notice except perhaps in respect to Grass rents under which head this Department is probably realizing to some extent receipts hitherto collected by Local Civil Officers —
