*Proceedings of the Madras Government, Public Works Department,
12th May 1874.*

Read the following papers:—

No. 286. From Major H. R. MEAD, R.E., District Engineer, Tanjore, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Camp at Koradachary, 23rd March 1874, No. 1,148.

With reference to G. O., No. 2,924, dated 4th December 1873, I have the honour to forward plan, specification, and estimate, amounting to Rupees 770, for constructing a 2nd class Police Station-house at Kotoor in the Munnar-gudi Taluq. The amount provided for this work in the above Government Order is Rupees 600, and as the work can be completed within the year 1874-75 if the full amount of the estimate is available, I request that the difference, viz., Rupees 170, may be allotted to the work in 1874-75.

2. The enclosed plan has been prepared in accordance with one furnished by the Inspecting Engineer for Buildings for adoption in this district, the Inspector-General of Police is said to have approved of it. The plan is stated to be that already adopted in the North Arcot District.

REFERRED to the Inspector-General of Police for approval of plan and estimate, and for report of the circumstances under which a new station-house is necessitated by the old one having fallen; under what supervision the latter was built and at what cost.

(Signed) G. W. WALKER, Colonel, R.E.,
Secretary to Government, P.W.D.
Fort St. George,
27th March 1874.

No. 287. From Lieutenant-Colonel C. S. HEARN, Inspector-General of Police, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Madras, 30th March 1874, No. 1,273.

With reference to your endorsement, dated 27th instant, on the Tanjore District Engineer's letter of the 23rd idem, No. 1,148, to your address, I have the honour to state that the estimate (Rupees 770) with the plans for a new station-house at Kotoor, Tanjore District, is approved and returned countersigned to save delay.

2. As a sum of Rupees 600 only has been entered in the list approved by Government for the work in question, the balance (Rupees 170) required will be provided in due course should funds become available in 1874-75.

3. The report called for regarding the old mud station-house at the locality will be submitted after the requisite information has been obtained from the district. Meanwhile the papers are returned for sanction owing to the close of the official year.

No. 288. From the same Officer, dated Madras, 14th April 1874, No. 1,419.

With reference to paragraph 3 of letter from this Office, No. 1,273, dated 30th ultimo, I have the honour to submit

* No. 83, dated 6th April 1874, a report,* in original, received from the Superintendent of Police, Tanjore, regarding the old mud station-house at Kotoor in the same district.

Proceedings of the Madras Government, Public Works Department,
12th May 1874.

2. It will be observed that the old Police Station-house was built by a contractor at a cost of Rupees 210 in 1864-65, and that the building having fallen down in 1871, the materials were sold for Rupees 17.2.0. An old mundappam, private property, has been since used as a station, but this is stated to be unsuited for the purpose.

From Captain A. T. ROLLAND, Superintendent of Police, Tanjore, to the Assistant Inspector-General of Police, Madras, dated Tanjore, 9th April 1874, No. 63.

In reply to your memorandum No. 1,284, dated 31st ultimo, (Hutting and Building,) I have the honour to report as follows.

2. The building at present used as a station-house is an old mundappam; as each hot weather comes round it is used as a water-pandal, and the owner, to whom we pay no rent, was us to quit, but he has always allowed us to stay on in it using only a small portion of what is already a very small building; it is besides utterly unsuited for the purpose of a Police Station-house; there is no other building in the village which is situated on the high road between the Cusabhs of Munnargudy and Tritrapoondy Taluqs.

3. In the year 1864-65 a mud wall and tiled roof building was erected by a Contractor, Seshaiengar, at a cost of Rupees 210. The Inspector-General sanctioned the scheme, as Government sanction, at that time, was not required. This mud building fell down in the year 1871. (vide letter No. 121, dated — May 1871, from this office, the material was sold as per sanction granted in memorandum No. 2,038, dated 16th May 1871, and fetched Rupees 17.2.0. Before this building was erected, and since its fall, we have occupied the mundappam above referred to.

No. 280.

ORDER THEREON, 12th May 1874, No. 1,281.

CIVIL WORKS, No. 31.

His Excellency the Governor in Council sanctions the plan with estimate amounting to Rupees 170, for construction of a 2nd class Police Station-house at Kotoor in the Tanjore District.

2. It is observed that the Budget provision for the work is less than the estimate now sanctioned by Rupees 170, and that the Inspector-General of Police promises to provide this balance later in the year should funds become available. (True Extract.)

From

to the Inspector General

The Inspector General

in reply to your letter dated 3rd March 1874
I have the honor to report as follows:

The building at present used
as a Station House is an old building
as each hot weather comes round it is much
and water poured and the ground where
we can no more, as it is not quite level
has always allowed us to stay on in
now only a small portion of which is left
- nearly a very small building which
is not really unsuitable for the purpose
of a Police Station. I must therefore
later building on the same site
situated to the left of the present
the building of a new one only on
the same site.

In the year 1874
and the building is now
a contract, and the
of the building.

*Proceedings of the Madras Government, Public Works Department,
12th May 1874.*

No. 302. Read the following Proceedings of the Madras Government in the Judicial Department, dated 17th April 1874, No. 666:—

ABSTRACT.—*Military Hospital at Kurnool.*—With reference to the estimate of Rupees 11,160, submitted for adapting this building to a Court-house, instructions ordered to be issued in the Public Works Department for utilizing the existing veranda space for shelter of witnesses and litigants, and existing veranda rooms for stowage of property. The additional accommodation referred in paragraph 3 of the Chief Engineer's note considered necessary and sanctioned for adoption when funds are available.

No. 303. ORDER THEREON, 12th May 1874, No. 1,287.

CIVIL WORKS, No. 36.

The Inspecting Engineer for Buildings will hold the sum of Rupees 840 at the disposal of the District Engineer of Kurnool, who will lose no time in availing himself of it to carry out the following repairs as per estimate, viz.:—

	Rs.
Roof repairs	707
Repairs to doors and windows	93
Sundries	40
	840

2. A sum of Rupees 900 is placed at his disposal for the undermentioned new work as per estimate, viz.:—

	Rs.
Five sky-lights	546
Furniture, etc.	320
Sundries	34
	900

3. The cost of the new veranda, Rupees 1,600, and of the out-houses, etc., Rupees 7,770, will be provided when funds are available.

4. The District Engineer will report when the works may be expected to be completed, and the building ready for occupation as a Court-house.

Proceedings of the Madras Government, Military Department.
25th November 1870.

Read the following papers:—

No. 478. Memorandum from the Deputy Quarter Master General, to the Secretary to Government, Military Department; dated Fort Saint George, 20th October 1870, No. 4898.

Forwarded to Government, with His Excellency the Commander-in-Chief's approval to the arrangements proposed by the Officer Commanding Ceded Districts, for the disposal of the Military buildings and lines at Kurnool.

From the Officer Commanding Ceded Districts, to the Quarter Master General, Fort Saint George; dated Head Quarters, Bellary, 15th October 1870, No. 126.

With reference to your memorandum, as per margin, and to Order of Government, No. 1131 of 26th August 1870, I have the honor to inform you that having directed the Officer Commanding Kurnool to communicate with the Civil

authorities at that place, I beg to recommend the following scheme for disposal of the Military buildings and lines at Kurnool:—

Place of arms	...	...	...	} To be handed over to the Police.
Cells	...	...	...	
Gun shed	...	...	...	
Magazine	...	...	...	
Old Hospital	...	...	...	To remain as at present under Civil authorities as a Debtors' Jail.
New do. and out-offices	...	...	...	To be handed over to the Civil and Session Judge as a Court House.
Artillery Barracks or present Hospital.	...	...	...	To be handed over to the Telegraph Department. The Municipal Commission recommends the Artillery Barracks being made over, but the Officer Commanding Kurnool represents that the hospital would be much better suited to the Department, being commodious and close to the line of wires, whereas the Artillery Barracks has no verandah, and is not adapted for a dwelling house. The Artillery Barracks might be handed over to the Police as a store-room.
Lines	...	...	...	To be handed over to the Municipal Commission, who should make over to the Police any portion that may be required for the Force, the remainder to be utilized as building sites—opportunity being taken of opening out crowded localities in the Fort by the grant of fresh dwellings or sites.

No. 479. From the Deputy Quarter Master General, to the Secretary to Government, Military Department; dated Fort Saint George, 20th October 1870, No. 4899.

With reference to Order of Government, No. 2619, dated 15th September 1870, I have the honor, by order of the Commander-in-Chief, to request reference to this office memorandum, No. 4898, dated 20th October 1870, conveying proposals for the disposal of the buildings and lines at Kurnool.

2. The papers from the Superintendent of Telegraphs, referred under your docket, dated 2nd September 1870, are herewith returned, the question having been disposed of in this office memorandum referred to above.

38

Nos. 478-480.

Resolving that the military buildings at
Kurnool be made over to Civil Department
for appropriation.

Proceedings of the Madras Government, Public Department,
15th December 1870.

Read the following papers:—

No. 123. From the Superintendent of Telegraphs, Bangalore Division, to the
Chief Secretary to Government, Fort Saint George, dated Bangalore,
27th August 1870, No. 1403.

I have the honour to request that, on the departure of the 19th N. I. from
Kurnool, a portion of the Government buildings, at present occupied by that Regi-
ment, may be made over to this Department for a Telegraph Office. The Govern-
ment of India is anxious to close all offices, the cash receipts of which do not equal
the local expenditure, and there appears to be no probability of bringing about a
balance in the case of the office at Kurnool unless free quarters are provided. The
Collector of Kurnool informs me that there is, at present, no unoccupied Govern-
ment building in the station that could be made available as a Telegraph Office,
and has suggested that the sanction of Government should be obtained to a portion
of the buildings, now occupied by the 19th N. I., being set apart for the purpose,
when that Regiment leaves Kurnool.

Transferred to the Military Department.

FORT SAINT GEORGE,
30th August 1870.

*Proceedings of the Madras Government, Public Works Department,
21st August 1873.*

Read the following Proceedings of the Madras Government, dated 5th August 1873, No. 1,216, Judicial Department:—

ABSTRACT.—*Kurnool*.—The transfer of the Court to the old Military Hospital, when the building is ready to receive it, sanctioned, and orders to be issued in the Department of Public Works for the necessary alteration to fit it for a Court-house as already approved.

ORDER THEREON, 21st August 1873, No. 131.

COMMUNICATED to the District Engineer, Kurnool, for preparation of plans and estimates of the required alterations to the old Military Hospital to adapt it for a Court-house.

(True Extract.)

(Signed) J. STURROCK,
Acting Under Secretary,
for Secy. to Govt., P.W.D.

To the District Engineer, Kurnool,

Exd. W. H. French,
Spars Copies.

Specification to be observed
in Converting the old Military
Hospital at Karnul
into a District Court
House.

Amount of Estimate Rs 14160.

1. The sites of the several
Buildings, both existing and
proposed, are marked on the
Map Plan N^o 1.

On Plan N^o 2 the several
alterations and additions are
shown in detail. These were
all fixed upon in Consultation,
on the ground, with the Civil Judge.

2. Two new doors are to be
put in at the places marked E

and F for the purpose of giving access from the Verandah to the Record and witnesses Rooms.—

3. Two cross walls, G and H, are to be built to separate the Court from the Sheristadars and Clerks' Rooms.—

These walls are to be 9 feet high, and in one of them there is to be an arched opening.

4. A screen is to be provided for the Judge's private Room at I.—

5. A new terraced Verandah to be built along the West end, to be 10 feet wide.—

6. The main and Verandah roofs to be repaired.—

7. The floor to be carefully pointed throughout with well ground Chunan Mortar. The old joints to be first raked out at least 3 inches

187
and well watered and the new work to be kept damp for 3 weeks.—

8. The walls inside to be white washed; the outside to be Brown washed.—

9. The Bath Room floor to be picked up and made anew with concrete and plaster. This is also to be kept damp for 3 weeks.—

10. All the wood work of doors and windows to be repaired, scraped, cleaned and repainted with 2 Coats of Carson's mineral paint.—

11. Five top lights are to be put in the roof—4 over the Court 8 ft. and one over the Record Room.—

12. Galvanized Iron wire netting ($\frac{1}{2}$ inch mesh) to be placed over the Ventilators.—

and F for the purpose of giving access from the Verandah to the Record and witnesses Rooms.

3. Two cross walls G and H, are to be built to separate the Court from the Sheristadar's and Clerks Rooms.

These walls are to be 9 feet high, and in one of them there is to be an arched opening.

4. A screen is to be provided for the Judge's private Room at I.

5. A new terraced Verandah to be built along the West end. To be 10 feet wide.

6. The main and Verandah roofs to be repaired.

7. The floor to be carefully pointed throughout with well ground Chunam Mortar. The old joints to be first raked out at least $\frac{1}{2}$ inches

150
and well watered and the new work to be kept damp for 3 weeks.

8. The walls inside to be white washed; the outside to be Brown washed.

9. The Bath Room floor to be picked up and made anew with concrete and plaster. This is also to be kept damp for 3 weeks.

10. All the wood work of doors and windows to be repaired, scraped, cleaned and repainted with 2 Coats of Carson's mineral paint.

11. Five top lights are to be put in the roof - 1 over the Court 8th and one over the Record Room.

12. Galvanized Iron wire netting ($\frac{1}{2}$ inch mesh) to be placed over the Ventilators.

Furniture for Court 1880.

1. Semicircular Table in 2 pieces for Vakeels made of good teak and polished - 2 feet in width.
2. 2 Benches for Dr. in 3 pieces: Teak wood with cane work backs and bottoms.
3. Bamboo mats to be provided for Judge's private room and the portion of the Court House occupied by him.
4. Teak wash hand stand, Towel stand, urinal, and Commode with the requisite crockery ware for Judge's Bath room.
5. Provide 3 Pankahs - one for Judge's private room, one for Bench, and one for Vakeels.
6. Provide and put up 3 lines of iron railing 3 feet high with teak hand rail one in front

of Bench one between Vakeels and Prisoners, and one between the Prisoners and the public.

New works.

1. A Boundary wall as shown on Plan & 1.
2. Two gates at the points marked J and K.
3. Rooms for attached property. The number and dimensions given were fixed by the Judge.
4. Two sheds for Litigants and witnesses. - It is considered desirable to have 2 sheds to keep Plaintiffs and Defendants and Witnesses apart.
5. Shed and yard for attached cattle.
6. Stable and Coach house.

Materials and Workmanship

Materials

1. Lime must be brought to the work unslaked.

All slaked lime will be rejected.

It must be kept unslaked and protected in a covered place until wanted.

When slaking, no

more water is to be used than is absolutely necessary.

When slaked it is to be sifted in a sieve

so fine as to remove all unslaked portions,

no matter how small;

and all lime required for plastering

is, when sifted, to be placed in

water for at least 10 days before use.

2. To be the best to be had in the locality.

It must be taken from where it can be got cleanest

and sharpest. All sand mixed

Mortar

with Clay will be rejected, - and must be removed.

3. The proportion of lime and sand to be used in preparing mortar

will be fixed by the Range Officer, and must be adhered to: ^{more} No mortar

is to be prepared than will be sufficient for three days use.

Any mortar older than that will be rejected and must be removed.

The mortar is not to be ground in a mill; but

pounded in a trough: It must not be semifluid but stiff and pasty;

and it must be beaten into this state before it is brought to the walls.

4. The soft crumbling slate of Rainil must not be used. The

stones must be selected from sound beds: They are to be dressed and

placed ready for use before the building is commenced, at least 10 days work should be dressed in advance.

Should the weather be hot and dry the stones are to be kept wet all day:-

5. The foundation trenches are to be excavated until sound earth is come to, and until the Range Officer ~~is~~ is satisfied that they are deep enough. Should any unsound patches of earth remain they are to be removed and sound earth rammed in. The whole of the bottom of the trench is to be well rammed with a heavy rammer until it is consolidated:-

The trench should not be cut wider than is required to receive the concrete.

Foundation
trenches &c

Concrete.

6. The Concrete is to be composed of Lime-sand and broken stones in such proportion as the Range Officer shall direct.

When the foundation trenches have been examined by the Range Officer ~~and~~ and passed, and not until then, the Concrete will be laid in ^{two} layers of 9 inches each; whatever the breadth of the trench may be it must be filled with Concrete, and the top surface must be made horizontal throughout to receive the masonry.-

Detailed instructions will be given for the preparation and laying of the Concrete.-

7. The Masonry is to be Hammer dressed, squared and coursed work

Masonry
work.

throughout: Every Course when Completed must be levelled off and watered and kept moist until the next Course is built upon it: This may be done with Bundles of damp Straw:

No hollows or vacant places will be allowed in the work:—all spaces between stones must be filled with stones and stiff mortar.

All the walls must be raised up in Courses, and the whole work throughout must be carried up as nearly level as possible: If any part of a wall is built more than one Course higher than any other part it must be taken down and rebuilt along with the rest of the work:—

In every Course—and at Bond stones a clear distance of about 3 feet apart and Quoins there must be a thorough or bond stone

which will go from face to face of the wall and be not less than 2 feet in length:—

The bond stones in one Course are to be placed at the middle of the spaces between the bond stones of another Course:—

The Quoins and Connections of Cross walls are to be similarly bonded by having a thorough stretcher in each wall alternately in each course:—

Pointing

9. The joints are to be raked and swept out for a depth of 1 ~~inch~~ ^{inches} and thoroughly watered before the pointing is commenced:— This raking out of the joints must be done with a sharp instrument and not merely hammered with a stone:— whilst the joints are wet the mortar is to be pressed in hard and properly finished ^{as} the work is done in dry weather

it must be kept moist for 2 or 3 weeks.

The whole of the outside of the mason work is to be pointed, and the inside of all except the rooms for attached property.

10. The inside of the walls of Plastering the rooms for attached property are to have the joints raked and swept out and watered as above. The proportion of lime and sand to be used for each coat of Plaster will be determined by the Range Officer, but no lime is to be used for either coat that has not been at least 10 days under water.

The second coat must be rubbed smooth, but it need not be polished.

11. The whole of the timber used Timber must be leak straight grained, well work seasoned sound and free from shakes.

and knots.

The scantlings as marked upon the drawings are to be adhered to. All beams, bressummers and rafters are to be smooth planed and to get 2 coats of wood oil, one before and the other after being put up. Doors and windows are to be cleaned off and sand papered and painted with 2 coats of Mineral paint.

12. The whole work is to be done in a substantial and workmanlike manner.

Rejected Materials Any materials rejected must be removed at once from the site of the works, and any workmanship rejected must be at once taken down. Should a delay of 24 hours occur in either of these cases after the order for removal, the officer in charge of the work will be

at liberty to remove and take down
at the expense of the Contractor, the

Complete

Proceedings of the Madras Government, Judicial Department,
17th April 1874.

Read the following papers:—

No. 72. From Colonel E. A. FOORD, R.E., Inspecting Engineer for Civil and Military Buildings, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, Fort St. George, dated Chepauk, 18th March 1874, No. 433.

With reference to the Order of Government of the 21st August 1873, No. 131.

Enclosures four.
One Plan.
One Site Plan.
One Estimate.
One Specification.

I have the honour to forward an estimate of Rupees 11,160, accompanied by plans and specification, for altering the old Military Hospital at Kurnool to fit it for a Court-house.

2. A new terraced veranda ten feet wide is to be built at the west end of the hospital. The other alterations or additions are inconsiderable. The walls are to be whitewashed, and all the doors and windows are to be repainted.

3. The rest of the estimate is for the following items:—

	rs.
Attached property room and Litigants and Witnesses' sheds	3,260
Stables and Coach-house	890
Cattle-shed	940
Compound wall and gates	2,650
Sundries	80

4. The District Engineer states that all the works were decided on, in personal consultation with the Judge, at the building, and he has countersigned the papers.

Referred with note by the Chief Engineer to the Judicial Department.
FORT ST. GEORGE, (Signed) G. W. WALKER, Colonel, R.E.,
24th March 1874. Secretary to Government, D. P. W.

No. 73. Chief Engineer's Note.
I cannot but think that this demand for Rupees 11,160 for additions and alterations (termed inconsiderable for the most part by the Inspecting Engineer) is, in the present state of the provincial finances, tantamount to indefinitely delaying the transfer of the Kurnool Court to a building, which is, as it stands, almost suitable for the purpose to which it was destined in December 1870.

2. About Rupees 1,500 spent in roof repairs, skylights, and furniture, one-half of which the Inspecting Engineer might have appropriated from funds at his own disposal, while application to Government was made for the rest, would have enabled the Judge to occupy the building, and hand over his present Court to the Madras Irrigation Company; existing veranda space, which is great, being utilized for shelter of witnesses and litigants, and existing veranda rooms for stowage of property, and I recommend the adoption of such a course at once, so that the approaching recess may be availed of for execution of the work.

3. Whether attached property rooms four in number, and two separate sheds for witnesses and stables and coach-house, cattle-shed, and compound wall, are necessary in such a locality as the Fort of Kurnool, will have to be determined

*Proceedings of the Madras Government, Judicial Department,
17th April 1874.*

in the Judicial Department. But, if necessary, they as well as the new veranda (if approved) will have to be deferred until Provincial funds are available.

PORT ST. GEORGE, (Signed) G. W. WALKER, Colonel R.E.,
21st March 1874. Chief Engineer, D. P. W.

No. 74. From Colonel D. ROBINSON, R.E., Director-General of Telegraphs in India, to the Hon. D. F. CARMICHAEL, Acting Chief Secretary to Government, Fort St. George, dated Calcutta, 21st March 1874, No. 4532.

Referring to the correspondence ending with your No. 1024, dated the 2nd July last, I have the honour to forward the accompanying copy of a letter, No. 917, dated 7th instant, from the Executive Engineer, Kurnool District, and to solicit that the Government of Fort St. George may be moved to accord early sanction to the estimate therein referred to, and direct the completion of the repairs to the new Court-house and the transfer to the Irrigation Department of the old one, in view to relieve this Department of the burden of rent it has now to bear in maintaining this uncommemorative office.

From Captain R. F. TAYLOR, Executive Engineer, in charge of Kurnool Range, to Colonel D. ROBINSON, R.E., Director-General of Telegraphs in India, dated Pathykindan, 7th March 1874, No. 917.

In reply to your letter, No. 4125, of the 20th February 1874, I have the honour to state that the necessary plans and estimates for converting the Military Hospital into a suitable office for the Session Judge were submitted by me in June or July 1873, some trifling alterations however being deemed necessary. The plans, &c., were returned to the District Engineer (in November 1873), who I believe at once made the requisite deviations and resubmitted the papers for the approval of Government. I regret that I cannot answer the latter part of your letter as I have no information to guide me; but I hope that it will not be long before Government sanctions the estimate and places funds at my disposal. The works when sanctioned will probably be completed in three or four months.

Referred to the Judicial Department in continuation of the letter from the Inspecting Engineer for Buildings with estimates and Chief Engineer's memorandum which were transferred to that Department on the 24th instant.

PORT ST. GEORGE, (Signed) G. W. WALKER, Colonel R.E.,
27th March 1874. Secretary to Government, D. P. W.

No. 75. ORDER THEREON, 17th April 1874, No. 666.

The Governor in Council concurs in the opinion expressed by the Chief Engineer in paragraph 2 of his note, dated the 21st March 1874, and directs that the needful instructions be issued in the Public Works Department on the subject.

2. The additional accommodation alluded to in paragraph 3 of the note is necessary, and is sanctioned for adoption when funds are available.
