G.O. No.	133	Press
~~B.P. No.~~		Mis.
264-265		
Dated	20-1-1874	195

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
20th January 1874.*

Read the following letters:—

No. 264. From Colonel E. A. FOORD, R.E., Inspecting Engineer for Civil and Military Buildings, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Chepauk, 4th October 1873, No. 1,259.

UNDER paragraph 102, Chapter V., of the Public Works Code, I have the honour to forward, for the orders of Government, an estimate of Rs. 1,840, accompanied by a plan and specification, for repairs and alterations to the District Munsif's Court at Kadiri, Cuddapah District.

2 Plans.
1 Estimate.
1 Specification.

2. The District Engineer reports that the estimate has been prepared at the request of the District Judge, who urges the necessity of the work being carried out as early as practicable, as the building has not been used for some time past, owing to the dangerous state of the present roof, most of the joists being very much decayed from dry rot.

3. When the building was constructed is not known from the available records, but its present value is estimated at Rupees 2,000. It was last repaired in 1864-65, at a cost of Rupees 97.

4. The original estimate, which was approved by the District Judge, amounted to Rupees 2,030, and provided for a terraced roof. By substituting a pent-roof the estimate has been reduced to Rupees 1,840. The work can be carried out this year only by a transfer of funds from other districts.

No. 264A. From the same Officer, dated Chepauk, 27th December 1873, No. 1,715.

WITH reference to your Memorandum, No. 487, dated 9th instant, I have the honour to re-forward the estimate and plan for the repair of the District Munsif's Court-house at Kadiri in the Cuddapah District.

3 Plans.
1 Abstract Estimate.
1 Specification.

2. The estimate has been reduced from Rupees 1,840 to Rupees 1,600 by adopting your suggestion as to a truss. It is to be observed however that the span is only 14 feet, and couples are almost invariably used for such a span; also that a single truss will come over a window and the purlins must be of unusual length, while if two trusses were used they would come over two openings.

3. No allowance was made in the estimate for the materials of the present roof, as the timber is country-wood, more or less rotten, and the debris of the terrace will not be of much use. On completion of the work all unused materials can be sold, and the value obtained credited as usual.

4. It was proposed to adopt the Bengal terrace for the covering of the roof, as the pantiles to be obtained at the place are of a bad quality. A slope of one-third was to be given, as it has been found that these terraces leak with a slight slope, the tiles being porous, and answer well with a greater slope. The cost of the two kinds of roof is nearly the same.

*Proceedings of the Madras Government, Public Works Department,
20th January 1874.*

No. 265.

ORDER THEREON, 20th January 1874, No. 133.
