Proceedings of the Madras Government, Public Works Department, 20th May 1874.

No. 407. Read the following letter from R. F. CHISHOLM, Esq., Consulting Architect to Government, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Royapettah, 18th April 1874, No. 30:—

I HAVE the honour to forward you an alternative design for the last standard plans issued for Taluq Cutcherries.

2. The design was drawn up specially for Koilaguntla under the instructions I received from Mr. W. Fraser, C.E. As there are probably many localities where stone walls and terraced roof would be more desirable in these buildings than brick walls and tiled roofing, it might be desirable to issue this design as an alternative standard design.

3. The plan and arrangement of rooms are similar to the last standard designs.

No. 408. ORDER THEREON, 20th May 1874, No. 1,340.

CIVIL WORKS, No. 43.

THE drawings will be returned to the Consulting Architect for correction in the following particulars, viz.:—

Subordinate Jail.—The end doors to be dispensed with, as out of sight of the Police, and therefore objectionable; and verandahs round three sides, presenting blank walls, may be dispensed with. (This alteration will apply to former plans also.)

Police Room.—The grated openings to be built up thirty inches from the ground according to G. O., No. 1,289 of 13th May 1874.

Inspector's Room.—The back-door to open into the adjacent verandah. A loop-hole to be made into the Cashier's room. A verandah to run along the front both of this and the preceding room.

Cashier's Room and Treasury—To be divided by a barred partition with door. All three openings into the Treasury being also barred. A side window is required to admit light into the Cashier's room.

Sheristadar's Room requires lighting, say, by a window over the lintel of the door.

Clerk's Room and Court House.—The buttresses of these rooms seem to have been incorrectly drawn in the elevations.

(True Extract.)

(Signed) G. W. WALKER, Colonel, R.E.,

Secretary to Government.

To the Consulting Architect to Government, with two Plans.

three openings into the Area: may being also banned. A side window is required to admit light into the Cashier's room -

Assistants Room. Requires lighting - say, 4 windows over the lintel of the door -

Clerks' Room & Consultroom. The Bathrooms of these rooms seem to have been inserted by Owen in the elevations.
