*Proceedings of the Madras Government, Public Works Department,
6th June 1874.*

No. 99. Read the following letter from A. C. LAWFORD, Esq., Officiating District Engineer, South Canara, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Mangalore, 6th May 1874, No. 19 :—

IN acknowledging receipt of G. O., No. 1,067, of 27th April 1874, regarding the revised estimate for the Mangalore burial ground, I have the honour to furnish the following explanation.

2. I was in charge of the range as well as district from 13th January to 23rd May 1873, and the matter being intimately connected with the Range Office, where alone the material for its disposal was to be obtained, I revised the estimate as Range Officer, and submitted it to the Inspecting Engineer as District Engineer. Up to this date, therefore, so far from being "an assiduous medium of communication between a Range Officer and the Inspecting Engineer," I was actually doing the work of the Range Officer as well as District Engineer.

3. After this date a reference was made, on 29th May 1873, to Mr. Pringle, then in charge of the range, for certain information required by the Inspecting Engineer, which he alone could supply, the plan and estimate having originally been framed and submitted by him, before I joined the district.

4. In August he was requested to supply the section called for by the Inspecting Engineer.

No. 100. ORDER THEREON, 6th June 1874, No. 1,486.

CIVIL WORKS, No. 7.

ORDERED to be recorded.

2. The explanation is no more satisfactory than before.

Colonel G. H. Walker R.E.
Secretary to Government
R. E. S. Madras.

Sir,
In acknowledging receipt of
G. O. No. 1067 of 27th April 1874 regarding
the revised estimate for the Mangalore
Burial Ground, I have the honor
to furnish the following explanation.

2. I am in charge of the Range as
well as District from 13th January 1874.
Inasmuch as the matter being intimately
connected with the Range office, where
alone the material for its disposal
was to be obtained, I received the
estimate at Range office and sub-
mitted it to the District Engineer
as District Engineer. Up to the date
therefore so far from being a residuum
