The District Engineer,

To, The Chief Engineer,
Madras.

Sir,

In forwarding the
accompanying appeal
from Sergeant Crowe, late
Supervisor in charge of
the Karnam Range,
I have the honor to
make the following
remarks:-

2. Page 2 of Sergeant

2.
Crowe's letter marked 1
in blue.

Mr. Crowe is not correct
here: There was nothing
said against him that
he did not hear: The
whole case was sent to
him for any remarks
he might have to make
before it was sent up,
and he had ample time
to prepare his explanation;
but at the same time.

I consider that he was
then not in a fit state
from anxiety &c to make
a really good defence.

No 2. Pages 17, 18 and 19
Para 14. All I can

3.
say about all this is that
what I have written in
my report is simply true:
I suggested no line of
defence, and invented
none: To my frequent
questions about those
Certificates - especially
as to why he could have
signed them - his answer
was what I have given
in my report.

3. I shall take
another opportunity of
addressing you on the
very severe remarks in
the G. O. on this point
and other parts of my

report: In the mean time I shall merely state that I had no intention of "Palliating" Mr. Crowe's carelessness; but that having elicited everything against him, I felt it was my duty to bring forward anything that could be advanced in his favour: He stated the reason why he had signed those Certificates; and, whilst I neither palliated nor excused conduct so reprehensible, I showed that he was not singular in the view he had taken of

the matter.

11. Page 25 Para 17.

I received no letter to this effect: The first intimation I got of Mr. Crowe's irregularities was through an anonymous letter, which I received a day or two before the 2^d accountant brought forward his charges.

5. The submission of Mr. Crowe's appeal has been delayed in the hope that I should be able to send you, at the same time, some further information about the Cuddalore road affair; that you

6
might have the whole
subject before you.

Mr. Crowe stated
that he believed Duru-
gachelam, the 2^d Account-
ant, was at the bottom
of many of the irregu-
larities which had
occurred.

There can be no doubt
but that he had some-
thing to do with the
Cuddapah road busi-
ness.

About the time
I received Mr. Crowe's
appeal I got a letter
from the late Head
Accountant, Palne Ande
enclosing a copy of a letter

See paper

7
from Durgachelam to one
of the maistries, the original
of which he said had fallen
into his hands; and also
certain statements regarding
Durgachelam's measurements
for Mr. Crowe on the Cuddapa-
road, the deliberate falsification
of which measurements he
said he could prove.

I
sent the papers to Mr. Bell
for investigation, but I do
not think he will be able to
make much of it.

About the same time
I received a letter from Mr.
Bell - (See Y) about Durug-
achelam.

Then Durgachelam
discovered that I had sent
the papers for investigation.

he resigned; but I refused
to accept his resignation
and dismissed him. This
was on the 15th of last
month. I had not been
able up to that date to
transfer him as ordered,
for both Mr. Bell and the
two Overseers were strangers
to the Range and Durugachalam
was the only one who knew
anything about it; besides
up to this date I have been
unable to get a Head
Accountant for the Range,
or a Draftsman either. —
I am very well pleased
that Durugachalam had not
an opportunity of contaminating
another Office Establishment.
6. — You will see from

all this ⁹ what a corrupt lot
they were at Hambam, and
that my opinion was correct
that the best thing to do was
to clear the whole out. You
may remember the names of
Arumagiri Achari the Contractor
for the Cuddapa road; and
Ayaswamy Mudaliar who
had been a Contractor on
certain tank-works on which
overpayments had been made.
They were, doubtless, parties to
the cheating that went on: —
Soon after Mr. Crowe took
charge both of them went to
Kurnool to be employed under
Captain Taylor, (with whom
they had worked before) the
former as a mistry, and the
latter as a Contractor. During

10
my investigation at Kamblam,
and when I became satisfied
of the share they had in these
transactions, I directed both to
be dismissed: As regarded
Krunagiri I considered that
if, as a Contractor, he would
go into partnership with a
maistry; he would, as a
maistry, go into partnership
with a Contractor: The letter
from Syaswamy to the Head
Constable showed clearly that he
was involved and so I dismissed
them both. —

I have the honor to be,
Sir,
Your most Obedt. Servt

Letter from Durugachalam:-

To. M. R. Ry.
Bussa Kotappa:-
Thanks.

All right here. Hope you
would write and send the
welfares of that place:-

Afterwards
Having received the
letter you have sent by
Kondadu, came to know all
the circumstances:- To answer
at once I had no leisure - excuse.
Though it is wonder to
hear the circumstances which
the Overseer has performed there,
yet times must be adhered to,
yet no matter. He who came
as Local Land Overseer at

2
present is a very good man.
He appears not to act according
to the words of the Overseer:-

Because he appears to be very
favourable to the maistries
under him and get good done
from them:- I and he are a
little acquainted:- Therefore
after he comes here I shall
speak much to him regarding
you and Chengalva Row:-

Therefore you must be bold.
Hearing your state of health
is in the same state I had
occasion to be sorry:- As this
is not time to take a few days
leave to take good medicine for
that, I am endeavouring to get good
medicine prepared and send
to you asking Dresser Tikhā
Ramsing:-

If you were to write
a letter to his name showing
*mean that he is to be with him some hopes and send the
an expectation letter to me I shall give him
that he will be the letter and get prepared
recompensed:-

the required medicine; I
shall inform you when our
gentleman comes here and goes
to Markapur:- When can come
here speak with me and go
away without knowing any one.

It is two days ago I have
written to Ramiah and regarding
Ramaya to Munisaomy Pille,
Maistry of Mandikanama.
I have not got a moments
leisure - I am working very
hard and transacting business
so that it may please the
gentleman. Karayanasamy is

given to assist me; must
write and send them and
there the circumstances that
take place there:— You have
written that the Range Officer
has fined you— I shall make
it not to be approved: Hence
don't consider about this.—

No 3. or Cumbum Range Office
6th November 1873.

From

The Officer in Charge of
Cumbum Range.

To

The District Engineer

Sir

I have the honor to submit
the accompanying papers marked A. B. C. D.
for your perusal and consideration:—

I regret to have to bring to
your notice the conduct of the 2nd Accountant
of my Office J. Doogachellum Chetty— although
so frequently warned and advised about the
custody of Official records &c, I find that
he is in the habit of taking certain documents
to his house, with the intention of affording
others information.—

Int. Sec.
16

I received an anonymous
letter (marked A) advising me, that the 2nd
accountant had taken out certain records
from the Office, with the intention of affording
C. Ramachandra Row, the late Overseer.

Certain information. Although I never take notice of such anonymous communications, my fears were aroused in this instance, especially since I was lately so severely warned about the custody of Office records. I accordingly watched the coming to Office of the 2nd Accountant and Cumbum Salug writer Karaianaswamy, yesterday morning, and calling to them, I retained the 2nd Accountant, and sent Karaianaswamy to the office with the keys, desiring him at the same time to bring me the G. O. File, suspecting, that the G. O. relating to Mr. Crowe. and Overseer Ramachendra Row, must have been some of the papers taken out. In the meantime I noticed a packet of papers in the 2nd Accountant's pocket. I had no sooner sent Karaiana. Swamy on his errand, when the 2nd Accountant became fidgety and rushed hastily towards the office, I called to him repeatedly, but he would not obey my calls, and entered the Office after Karaianaswamy. I soon followed, when Karaianaswamy pointed to me a packet hurriedly thrown on the table, saying "there are the G. O. take them" or words to that effect. This packet on examination comprised

the following. -

Two G. O. Nos 2234 and 2235 of 9th and 10th September 1873 respectively referring to Mr. Crowe's and Ramachendra Row's case

1 Return of Tools for the half year ending 31st March 1873 for the Markapoor Salug submitted by Ramachendra Row. late Overseer 1 ditto for half year ending 30th September 1873 submitted by Mr. Bond I questioned the 2nd Accountant but he totally denied the charge; but subsequently admitted (vide statement marked B) having taken one G. O. The fact of him having taken the other papers is confirmed from all of them having been found with the G. O. and M. Karaianaswamy's statement (herewith sent marked C). -

Further. Ramachendra Row. the late Overseer is down here, and many have proved the intimacy existing between him and the 2nd Accountant. Your late letter relative to the retention of the above Overseer's pay, until such time as the tools of the Salug are satisfactorily accounted for - no doubt led to the Tools Returns being taken for his especial information. I am endeavouring to the best of my ability to regulate matters and have my orders obeyed, but I regret

to find, that I cannot rely upon the only
Subordinate in my office, to whose charge
I am obliged to entrust my records.

I also regret to report, that I am
sufficiently convinced that the 2nd Account-
ant is the author of a Seditious letter, he
submitted to a local Hindu Maistry Bappa
Gottappa, on the 19th ultimo the late Head
Accountant lodged a formal complaint to
me, and produced the original letter. The
2nd accountant admits he wrote the letter,
(vide his Statement B) although he at
first denied holding any communication
with the Maistries and other Subordinates
in the Range I enclose a true translation
of the letter x. from it you will find, that
an intimacy exists between these two men,
which can do the Service no good. I am
striving to better matters with the assistance
of my Overseer, but this man the 2nd Account-
ant, encourages and dares to hint to a
Subordinate, that he has got enough in-
fluence to cancel a fine I levy. The letter
speaks for itself. The warning conveyed in the
late J. O. seems to have no effect. I therefore
from all the above conclude, that such a
man in my Range Office cannot be trusted
I have no confidence in him and leave

you to deal with him as he justly
deserves.—

I have the honor to be

Sir

Your most obedient Servant

Extract from the District Engineer of Kurnool
to the Chief Engineer, Madras No 887 dated
22^d November 1873.

Mr Crowe stated that he believed
Durgachellam, the 2^d Accountant, was at
the bottom of many of the irregularities
which had occurred. There can be no doubt
but that he had something to do with the
Guddalah road business.

About the time I received Mr Jones's
appeal I got a letter from the late Head
Accountant Palve-Aude enclosing a
copy of a letter from Durgachellam to
one of the Maistries, the original of which
he said had fallen into his hands; and
also certain statements regarding
Durgachellam's measurements for Mr
Crowe on the Guddalah road the deliberate
falsification of which measurements he
said he could prove. I sent the papers
to Mr Bell for investigation but I do not

think he will be able to make much of it.

About the same time I received a letter from Mr Bell - (See Y) about Durgachellam:

When Durgachellam discovered that I had sent the papers for investigation he resigned; but I refused to accept his resignation and dismissed him: This was on the 15th of last month: I had not been able up to that date, to transfer him as ordered, for both Mr Bell and the two Overseers were strangers to the Orange and Durgachellam was the only one who knew anything about it.
