No 764.
Dem.

The District Engineer
Presidency.

To

The Chief Engineer
for Irrigation

Sir,

I have the honor to submit for sanction an Estimate amounting to Rp 1-30- prepared at the request of the Collector of Madras for permanently marking out (with granite) certain lines. The Estimate was then approved by the Collector

2 Encls Estimate.

2 ——— The Collector of Madras states that until the work in question is finished the Collector of Chingleput and himself are unable to furnish certain information called for by the Board and by Government in regard to private property lying within the beds of tanks. Government wish to purchase the property as soon as possible in order to put an end to cultivation in the tank beds to the prejudice of the tanks. The Collector requests that the work may be executed before the rains fall down on the tanks.

3 ——— The Estimate provides for everything necessary. The rates are reasonable and sufficient, and no supplementary works will hereafter be required.

4 ——— Funds may be allotted from the current year's Reserve under the head Agricultural "Imperial" at the disposal of Government.

I have the honor to be
Sir,
Your obedient servant
