*Proceedings of the Madras Government, Public Works Department,
24th June 1874.*

Read the following papers :—

No. 503. From T. MOSS, Esq., Officiating Controller of Public Works Accounts, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Madras, 29th May 1874, No. 1,800.

With reference to G. O., No. 1,319, of the 16th instant, relative to the expenditure incurred on the Lower Coleroon Anicut, I have the honour to state that the difference between the amounts under Capital and Revenue as given by the District Engineer and by this office is due to the inclusion by this office, under "Capital," of the outlay incurred on reconstructions, extensions, and improvements estimated to cost more than Rupees 5,000 each, which the District Engineer had classed under "Revenue."

2. The difference of Rupees 195 between the total outlay as given by this office, and as reported by the District Engineer, is due to corrections of account as made in this office.

No. 504. *Note by the Chief Engineer for Irrigation.*

I HAVE no information as to the items composing the amount which has by the Controller of Public Works Accounts been debited to Capital, and by the District Engineer, Tanjore, to Revenue, but I believe that the greater part appertains to the repair of the damage sustained by the Lower Anicut on more than one occasion, and that this work was for the most part strictly a repair, and therefore chargeable to Revenue.
