*Proceedings of the Madras Government, Public Works Department,  
26th June 1874.*

No. 573. Read the following letter from Captain J. L. L. MORANT, R.E., District Engineer, Neilgherries, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Ootacamund, 27th April 1874, No. 127 :—

I AM proceeding to hand over the machinery, plant, and stock now on the premises to the Principal of the Lawrence Asylums, in accordance with Public Works G. O., No. 1,031-B., of the 21st instant, but I beg orders on the following points.

2. The Principal continues, as he has begun, to take bricks, lime, sand, etc., just as he requires them, without any of the subordinates of my department being present to hand them over to him. I am prepared, and have told him so, to send a subordinate over to the Asylums once a month (for as many days at a time as are needed) to hand over all that he may require. I am, as you are aware, short handed in the way of office establishment and overseers, and it is impossible for me to send a person over oftener than once a month without materially interfering with my regular office duties. I gather from a letter I have received from the Principal that once a month will suffice.

3. I request that orders may be issued to the Principal to abstain from taking over stock articles unless formally handed over to him by this department. Otherwise I cannot, of course, be held responsible for their correctness.

4. I also beg to request that the Principal be directed to take over all such articles of machinery and plant which are too heavy to be removed without expense. For as every one of the premises on the Asylum plateau are to be now given up to the Principal, it will be obviously impossible for me with no subordinate on the spot to be responsible for any machinery and plant left on the premises. Smaller articles which the Principal does not require can be removed.

No. 574. ORDER THEREON, 26th June 1874, No. 1,726.

MILITARY WORKS, No. 19.

ORDERED to be recorded, it being understood that the Principal of the Lawrence Asylum and District Engineer of the Neilgherries have (in conformity with the spirit of G. O., No. 1,006 BB, of 17th April, and No. 1,031 B, of 21st April,) arranged particular days, convenient to both, on which delivery of stock shall be made in due form. Also that the Principal has taken charge of all machinery and plant that it would be inconvenient to move and to store elsewhere.

(True Extract.)

Colonel, R.E.,  
Secretary to Government.

To the District Engineer, Neilgherries.  
.. Principal of the Lawrence Asylums.

Exd. E. C. Shunker.
