Proceedings of the Madras Government, Public Works Department, 4th February 1874.

No. 67. Read the following letter from Lieutenant-Colonel R. A. ROBERTS, R.E., District Engineer, Madura, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Camp at Allinagaram, 8th January 1874, No. 4,161 :—

I HAVE the honour to report that there is at present a vacancy in this district of a 3rd Grade Taluq Overseer, as Mr. J. W. Jackson, who was in charge of the Dindigul Taluq, has resigned his appointment at his own request, and his resignation has been accepted by me on the 1st November last.

2. In order to fill up this vacancy, I applied to the Principal of the Civil Engineering College for the service of a passed candidate, but that gentleman has informed me in reply "that there are at present no passed Overseers available for employment."

3. As Mr. Hawksworth represents to me that he is subjected to great inconvenience for want of an Overseer in lieu of Mr. Jackson, I have, under the above-mentioned circumstances, taken upon myself to nominate, in anticipation of the sanction of Government, my Office Draughtsman and Estimator, C. Manicum Moodelliar, to act in the vacant post, on probation, until the services of a duly qualified person are obtainable.

4. Manicum Moodelliar has passed for a 1st-class Draughtsman and Estimator, and his pay has been reduced from 60 to 45 in consequence of the introduction of the present District Engineers' system.

5. Manicum Moodelliar holds excellent testimonials for his good conduct and zeal in his work; and, as he has been under my personal orders now for nearly two years, I have had good opportunities of forming my own judgment on his services, and I believe him to be a remarkably careful, honest, and upright man. As he has had some experience in the duties of an Overseer, having been engaged as a temporary Overseer on the Chembrambaukum Tank Project, I have every reason to believe that he will give satisfaction in the post to which I have temporarily nominated him. Trusting that this proceeding will meet with the approval of Government.

No. 68. ORDER THEREON, 4th February 1874, No. 267.

ESTABLISHMENT, No. 4.

APPROVED, as a temporary arrangement, till the services of a passed candidate are available.

Sir,

I have the honor to report that there is at present a vacancy in this District, of a 3? Grade Palook Overseer, as Mr J. W. Jackson, who was in charge of the Dindigul Palook, has resigned his appointment at his own request, and his resignation has been accepted by me on the 18th November last.

2. In order to fill up this vacancy, I applied to the Principal of the Civil Engineering College for the service of a passed

candidate, but that Gentleman has informed me, in reply, that "there are at present no passed "Overseers available for employment".

3. As Mr Hawksworth represents to me that he is subjected to great inconvenience for want of an Overseer in lieu of Mr Jackson, I have, under the abovementioned circumstances taken upon myself to nominate, in anticipation of the Sanction of Government, my Office Draftsman and Estimator, M. Manicum Moodeliar, to act in the vacant post, on probation, until the services of a duly qualified person are obtainable.-

4. M. Manicum Moodeliar has passed for a 1st class Draftsman and Estimator; and his pay has been reduced from 60 to 45, in consequence of the introduction of the present District Engineers System.-

5. Manicum Moodeliar holds excellent testimonials for his good conduct and zeal in his work; and as he has been under my personal orders now for nearly two years, I have had good opportunities of forming my own judgment on his services, and I believe him to be a remarkably careful honest and upright man. As he has had some experience having been engaged as a temporary overseer in the duties of an Overseer on the Chembrambaukum Tank project, I have every reason to believe that he will give satisfaction in the post to which I have temporarily nominated him. Trusting that this proceeding will meet with the approval of Government.-

Re-establishment. The appointment of Draftsman Manicum Pandian & act as Taliay Overseer Dindigul, approved as a temporary measure

Proceedings of the Madras Government, Public Works Department, 26th January 1874.

Read the following papers:—

No. 349. From Lieutenant-Colonel J. F. FISCHER, R.E., District Engineer, Godavery, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Dowlaishweram, 7th January 1874, No. 2,945.

I HAVE the honour to forward herewith a plan and estimate, amounting to Rupees 780, for constructing a new groyne near Pillunka on the left bank of the Gowtamy Godavery, together with tracings of the survey and levels of that portion of the river, as requested in your Memorandum, No. 788, dated 4th November 1873.

1 Survey Plan.
2 Sections.
1 Estimate.

No. 30A.

No. 349A. *Note by the Chief Engineer for Irrigation.*

THE estimate for a groyne near Pillunka on the left bank of the east channel of the Gowtamy Godavery has been prepared by the District Engineer on instructions given by me after an inspection of the locality. Nearly all the lunka has been washed away, and a defensive work is necessary. It is proposed to try the effect of this groyne, which will divert the current coming through the channel across the island opposite thereto before estimating for any additional groynes, which may however be found necessary. It would have been better could the state of this part of the river, which is far from satisfactory, have been treated comprehensively, but as there is danger of the river embankment being undermined, it would not be prudent to wait until measures for controlling the course of the river at the head of the island have been duly considered and put on paper.

2. The estimate has been altered in this office to Rupees 825, as it appeared that the earthen core which was intended to make the groyne less expensive would, from the necessity of using gunny bags, be almost as expensive as stone, which will be a more durable material.

3. The necessary funds may be placed at the disposal of the District Engineer from the Reserve under Agricultural, and this groyne, in common with all river defences, should be classed as an Ordinary Agricultural work for which no Capital or Revenue Account is kept.

FORT ST. GEORGE, 13*th January* 1874.

(Signed) J. MULLINS, Lieut.-Colonel, R.E.,
Chief Engineer for Irrigation.
