G.O. No.	1816	Press
B.P. No.		Mis.
Dated	7-7-195	6874

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
7th July 1874.*

Read the following letters :—

No. 114. From G. D. WYBROW, Esq., Assistant Engineer in charge of District Engineer's Office, Trichinopoly, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Trichinopoly, 22nd April 1874, No. 23.

I HAVE the honour to submit for sanction the accompanying plan, estimate, etc., for sinking a well to the Apothecary's quarters, Garrison Hospital, Trichinopoly, amounting to Rupees 205, the same having received the approval of His Excellency the Commander-in-Chief.

No. 115. From the same Officer, dated Camp at Toriore, 22nd May 1874, No. 63.

WITH reference to your endorsement No. 289, dated 27th April 1874, I have the honour to re-transmit the plan, estimate, and specification, amounting to Rs. 226, for sinking a well for the Apothecary's quarters of the Garrison Hospital at this station for sanction.

No. 116. ORDER THEREON, 7th July 1874, No. 1,816.

MILITARY WORKS, No. 6.

SANCTIONED for execution from the Minor New Works allotment at the disposal of the District Engineer.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the District Engineer, Trichinopoly.
„ Officiating Controller of Public Works Accounts.

Your most Obedient Servant

G. W. Brown.
District Engineer in charge

District Engineer's Office
Fitchburg, Mass. 18th May 1874

Trial pits have been excavated and Rock found at 3 feet below the surface.

It is proposed to excavate the
first 3 feet in depth 15 1/2 feet in dia-
meter, the next 6 feet in depth, to be
12 feet in diam. at top and 11 feet at bottom.

The remaining 12 feet in depth to be 8 feet in diam at top and 6 feet at bottom.

The first 3 feet of excavation being 15 1/2 feet in diam. and the top portion of the next 6 feet of excavation being 12 feet in diam., leaves a berm of 1 1/2 feet, so as to prevent loose soil from falling into the well while the excavation is in progress.

It is proposed to build a parapet wall 3 feet high, all round the well and two pillars to support a beam, upon which a wheel is to be fixed for drawing up water.
