Public Works DEPARTMENT

G.O. No.	1845-46	Press
B.P. No.		Mis.
Dated	10-7-1874	195 .

Not to be folded or roughly handled

No. 168. Read the following letter from Lieutenant-Colonel J. H. M. SHAW-STEWART, R.E., Consulting Engineer for Railways, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Madras, 18th June 1874, No. 359:—

I HAVE the honour to submit four estimates of the cost of fixing thin planking under the zinc roofs of the passenger platforms of the undermentioned stations:—

		Rs.
Arconum, amount of estimate	... ...	1,732
Ghooty	do.	961
Adoni	do.	655
Raichore	do.	1,291

2. In 1873 the attention of the Agent was drawn to the desirableness of taking measures with a view to moderate the great heat experienced upon the platforms at the Coimbatore, Mettapolliam, and Erode stations, caused by the transmission of the sun's rays through the thin roof of corrugated metal.

The Railway Authorities at once accepted the suggestion, and provided the required planking. The cost of the work was borne by "Maintenance," and fell in the first two cases against Capital, (the Neilgherry branch not having been open two years,) and in the third against Revenue.

3. Looking to the fact that the comfort of passengers travelling upon the Madras Railway has been greatly increased by the introduction of the planking beneath the metal roofs at those stations, I suggested that similar remedial measures should be adopted at other stations where they were greatly required; and with reference thereto, Mr. Elwin has forwarded the enclosed estimates. I recommend that they be submitted to the Government of India for sanction.

4. I do not however agree with the Chief Engineer in regard to the incidence of the cost of the under-roofing at Ghooty and Adoni. These works, being each under Rupees 1,000, should, in my opinion, under the arrangement entered into between the Secretary of State and the Madras Railway Company, be debited to Revenue.

I gather from the correspondence between the Board and the Secretary of State, embodied in the Proceedings of Government, No. 2,170, dated 12th September 1872, that, in fixing the sum of Rupees 1,000 as the limit of expenditure chargeable to Revenue, the Directors of the Madras Railway intended that such cases should not be ruled with reference to the principles enunciated in the Secretary of State's Despatch above quoted. I beg to submit the matter for the orders of the Government of India.

5. It was proposed to charge the expenditure in respect of the above works to Schedule C, "works not specially provided for," in the Budget Estimate 1874-75, and the sanction will lapse at the end of the fourth quarter after the receipt of sanction.

Proceedings of the Madras Government, Public Works Department, 10th July 1874.

No. 169. ORDER THEREON, 10th July 1874, No. 1,845.

RAILWAY, No. 21.

ORDERED that these estimates for introducing planking beneath the metal roofs of the Arconum, Ghooty, Adoni, and Raichore stations be submitted for the favourable consideration and sanction of the Government of India, with the remark that His Excellency the Governor in Council concurs with the Consulting Engineer in the opinion expressed in paragraph 4 as regards the incidence of the cost of the works at Ghooty and Adoni.

No. 359

From

LIEUT.-COLONEL J. H. M. SHAW STEWART, R.E.,
Consulting Engineer for Railways,

To

COLONEL G. W. WALKER, R.E.,
Secretary to Government,
Public Works Department,
Fort Saint George.

SIR,

Enclosures 8.

I have the honour to submit for estimates of the cost of fixing thin planking under the zinc roofs of the passengers platforms of the undermentioned stations:—

Arconum	amount of estimate	Rs. 1732
Gooty	"	" 961
Adoni	"	" 655
Raichoor	"	" 1291

2. In 1873 the attention of the Agent was drawn to the desirableness of

of taking measures with a view to moderate the great heat experienced upon the platforms at the Coonoor, Metapolliam, and Gode stations, caused by the transmission of the sun's rays through the thin roof of corrugated metal.

The Railway authorities at once accepted the suggestions and provided the required protection. The cost of the work was borne by "maintenance" and fell in the first two cases against Capital of the Neilgherry Branch not having been open two years, and in the third against Revenue.

3 Looking to the fact that the comfort of passengers

have thus

travelling upon the Madras Railway has been greatly increased by the introduction of the planking beneath the metal roofs at these stations, I suggested that similar remedial measures should be adopted at other stations where they were greatly required; and with reference thereto, Mr. Elwin has forwarded the enclosed estimates. I recommend that they be submitted to the Government of India for sanction.

4 I do not however agree with the Chief Engineer in regard to the incidence of the cost of the under-roofing at Coonoor and Adoni. These works, being

being each under Rs 1000, should
in my opinion, under the arrangement
entered into between the Secretary of
State and the Madras Railway
Company, be debited to Revenue.

I gather from the
correspondence between the Board
and the Secretary of State, embodied
in the Proceedings of Government
No 2710 dated 12th September 1872,
that, in fixing the sum of Rs 1000
as the limit of expenditure chargeable
to Revenue, the Directors of the
Madras Railway intended that
such cases should not be ruled
with reference to the principles
enunciated in the Secretary of
State's despatch above-quoted.

I
