Proceedings of the Madras Government, Public Works Department,

11th July 1874.

No. 210. Read the following letter from Lieutenant-Colonel J. H. M. SHAW-STEWART, R.E., Consulting Engineer for Railways, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Madras, 25th June 1874, No. 372 :—

I HAVE the honor to submit, for the sanction of the Government of India, the accompanying Indent (in duplicate) on the Board of Directors of the Great Southern of India Railway Company for articles required from England, the approximate cost being Rupees 1,200.

No. 77, dated 16th June 1874, with letters, Nos. 5,555 and 5,573, dated 29th May and 17th June 1874.

2. I have authorized the Agent to arrange for the disposal of the large wheel lathe, and, in anticipation of the sanction of Government, to forward the Indent for the two smaller lathes to the Board for compliance.

From W. S. BETTS, Esq., Agent of the Great Southern of India Railway, to Lieut.-Colonel J. H. M. SHAW-STEWART, R.E., Consulting Engineer for Railways, dated Negapatam, 29th May 1874, No. 5,555.

THE Locomotive Superintendent brings to my notice that consequent on the gauge of this line being about to be altered, a 7-feet wheel lathe, now in the shops, will have to be disposed of. This lathe will be useless for the small wheels, the maximum diameter of which is only 3 feet. It will however be necessary to replace it with two smaller lathes, which can be done at about the price, or nearly so, that the large one will fetch. Will you please favor me with the sanction of Government to my disposal of this large lathe, and to my submitting an indent for two smaller machines.

From the same Officer, dated Negapatam, 17th June 1874, No. 5,573.

YOUR No. 261, dated the 1st instant. I have the honor to forward, for the sanction of Government, the enclosed Indent (in triplicate) on the Board of Directors in England for two 4-feet wheel lathes for turning the rolling stock wheel tyres of the narrow gauge.
