Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
13th July 1874.*

No. 220. Read the following letter from R. F. CHISHOLM, Esq., Consulting Architect to Government, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Royapettah, 28th May 1874, No. 78:—

I HAVE the honour to return the plans of the Taluq Cutcherries originally forwarded with my letter No. 30, dated the 18th April. They have been altered and corrected according to the instructions conveyed in G. O., No. 1,340, dated 19th May 1874.

No. 221. ORDER THEREON, 13th July 1874, No. 1,871.

CIVIL WORKS, No. 14.

THE Consulting Architect re-submits with this letter designs of Taluq Cutcherries which were returned for revision in accordance with the instructions given in G. O., No. 1,340, dated 20th May 1874.

2. In the revised designs it is observed that there is a discrepancy between the cross section on A A and the plan, the former improperly exhibiting a door in the end side walls, which is not in the plan and is objectionable. The longitudinal section on line G G also shows doors leading into the treasury, instead of barred openings which were ordered to be provided.

3. With these corrections the designs will be lithographed for distribution and guidance; but the special attention of the Consulting Architect will be called to the inaccuracies pointed out, and it is hoped that greater care will be exercised in future.

*Proceedings of the Madras Government, Public Works Department,
20th May 1874.*

No. 407. Read the following letter from R. F. CHISHOLM, Esq., Consulting Architect to Government, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Royapettah, 18th April 1874, No. 30 :—

I HAVE the honour to forward you an alternative design for the last standard plans issued for Taluq Cutcheries.

2. The design was drawn up specially for Koilaguntla under the instructions I received from Mr. W. Fraser, C.E. As there are probably many localities where stone walls and terraced roof would be more desirable in these buildings than brick walls and tiled roofing, it might be desirable to issue this design as an alternative standard design.

3. The plan and arrangement of rooms are similar to the last standard designs.

No. 408. ORDER THEREON, 20th May 1874, No. 1,340.

CIVIL WORKS, No. 43.

THE drawings will be returned to the Consulting Architect for correction in the following particulars, viz. :—

Subordinate Jail.—The end doors to be dispensed with, as out of sight of the Police, and therefore objectionable; and verandahs round three sides, presenting blank walls, may be dispensed with. (This alteration will apply to former plans also.)

Police Room.—The grated openings to be built up thirty inches from the ground according to G. O., No. 1,289 of 13th May 1874.

Inspector's Room.—The back-door to open into the adjacent verandah. A loop-hole to be made into the Cashier's room. A verandah to run along the front both of this and the preceding room.

Cashier's Room and Treasury.—To be divided by a barred partition with door. All three openings into the Treasury being also barred. A side window is required to admit light into the Cashier's room.

Sheristadar's Room requires lighting, say, by a window over the lintel of the door.

Clerk's Room and Court House.—The buttresses of these rooms seem to have been incorrectly drawn in the elevations.

From

THE CONSULTING ARCHITECT TO GOVERNMENT,

To

THE *Secretary to Government*
Public Works Department.

SIR,

2369
I have the honor to return
the plans of the Salug futeherries
originally forwarded with my letter
No. 30 dated the 18th April. They have
been altered and corrected according
to the instructions conveyed in
G. O. No. 1340 dated 19th May 1874.

I have the honor to be,
Sir,

Your most obed^t. Serv^t.

M. Viswam
Consulting Arch^t. to Govt.

Now

The Consulting
architect (P. C. 1878 dated 28 May
1874)

The Consulting
Architect submits
with this letter designs
of Salook Cutcheries
which were returned
for revision in ac-
cordance with the
instructions given
in G. O. No. 1340 dated
20th May 1874.

In the revised
designs it is observed
that there is a discre-
pancy between the

cross section on A A
and the plan the
former exhibiting a
door in the end side
wall which has no
existence in the plan.
The longitudinal sec-
tion on line B. B. also
shows doors leading
into the Treasury
instead of barred
openings which were
ordered to be provided.

With these corrections
the designs will be
lithographed for dis-
tribution and gui-
dance, but the
special attention
of the Consulting Ar-
chitect will be called
to

to the inaccuracies
pointed out and it
will be expected to
exercise greater care
in future!

LMW

In view of the fact
that this is the first time
these plans have been
made, it is necessary
that the most careful
attention should be
given to the details
of the work, and
that the necessary
corrections be made
before the plans are
published. The
plans are now in the
hands of the Architect
and will be ready for
publication in a few
days.
