*Proceedings of the Madras Government, Public Works Department,
13th July 1874.*

No. 226. Read the following letter from Colonel E. A. FOORD, R.E., District Engineer, Bellary, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Bellary, 23rd June 1874, No. 390 :—

I HAVE the honour to submit, for the sanction of Government, the accompanying estimate, amounting to Rupees 105, with a report, for connecting the punkahs in the barracks attached to the Royal Artillery at Bellary, with reference to the instructions conveyed in G. O., No. 405, dated 19th February 1874, about reduction of expenditure for punkah-pulling.

2. The estimate has been approved by His Excellency the Commander-in-Chief. Funds are available under "Minor New Works, Military."

Report to accompany the Estimate
for providing Puntah wheels, Friction
Rollers &c for the Royal Artillery
Barracks.

Amount of Estimate Rs 105.

With the present arrangement of
Puntahs, it is necessary to employ 4
Sets of Coolies, to each of the three Barracks.
It is now proposed to alter the position
of the Puntahs in the end rooms, and
connect them with those in the main
rooms by ropes passing between friction
roller, fixed in a frame and built into
the partition walls of the Barracks.
By this arrangement 2 Sets of Coolies
need only be employed to each Barrack.
To make the pulling as easy as possible,
a teak wood wheel, 2 in diameter, will
be fitted into a frame, which will be
fixed to the door frames of the end
rooms of the Barracks.

ABSTRACT.

P. N. 3851/74

Rolling

Estimate amounting to Rs 105

of the Probable Cost of

Puntah wheels and rollers

100 Nos for the Royal

Artillery Barracks

at Bellary

To give room for the wheel, it will
be necessary to reduce the height
of the door-shutter, from 8. to 6 feet.
This will be done by removing the
glazed upper part of the shutters,
and altering them in such a way that
they will fit in under the bottom frame
of the wheel, which will be made suf-
ficiently large to admit of this
arrangement being carried out. —

New Cotton ropes for connecting
suspending and pulling, will be pro-
vided for the 2 each puntahs at
each end of the Barracks. —
