Dated	14-7-1894	195

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
14th July 1874.*

No. 255. Read the following letter from Colonel E. A. FOORD, R.E., District Engineer, Bellary, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Bellary, 23rd June 1874, No. 389:—

I HAVE the honor to transmit, for the sanction of Government, an estimate of Rupees 175, countersigned by the Venerable the Archdeacon of Madras, with a report, for putting wire netting to the ventilators of the Garrison Church at Bellary. The object of the work is to prevent sparrows causing inconvenience and annoyance during Divine Service.

2. Funds will be provided from the grant for "Minor New Works, Military."

No. 256.

ORDER THEREON, 14th July 1874, No. 1.888.

MILITARY WORKS, No. 10.

SANCTIONED.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the District Engineer, Bellary.

- 1. Ecclesiastical Department.
- 2. Officiating Controller of Public Works Accounts.
- 3. Military Department.

Report to accompany the Estimate for fitting
Wire netting to the Ventilators of the Garrison Church.

Amount of Estimate Rs 178.

The Chaplain complains that Birds come into
the Church through the Ventilators and annoy the
Congregation during service.

To prevent this, it is proposed to fix wire
netting to the Ridge Ventilator and to the Ventilator
Windows.

For the Ridge Ventilator the Wire netting
will be fastened between 2 strips of Teakwood, each
2 inches broad and $\frac{1}{2}$ an inch thick, the wood will
then be screwed on to the ends of the Ridge Ventilator
Rafters.

A Teakwood frame 4' x 2' will be built into
the wall outside the Ventilator windows so as not to
prevent their being opened and shut.

The wire netting will be fitted to the frame
and will be screwed down to it resting between
the frame and a strip of Teakwood 2" broad
and $\frac{1}{2}$ an inch thick.
