G.O. No.	1957	Press
B.P. No.		Mis.
Dated	21-7-	6874
		—195—

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
21st July 1874.*

No. 452. Read the following letter from Lieutenant-Colonel J. H. M. SHAW-STEWART, R.E., Consulting Engineer for Railways, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Madras, 18th November 1873, No. 614 :—

ADVERTING to my letter, dated the 18th September 1873, No. 495, with which was forwarded an estimate, amounting to Rupees 44,014, for doubling the line of the Madras Railway between Veysarapaudy Junction and the Perambore Station,

* No. 928, 11th November 1873.

I have now the honor to lay before His Excellency in Council a letter* from the Agent of that Company, in which he asks me to draw attention to the importance which the Railway officers attach to the early execution of this work.

2. Mr. Barton Wright states that the experience gained since the introduction of the improved mail train service has clearly shown the necessity for the doubling of this part of the line on the grounds of safety and convenience. The subject has already been fully considered and discussed, and as His Excellency in Council has been pleased to express his approval of the proposed measure, I have taken upon myself the responsibility to authorize the commencement of the work in anticipation of formal sanction.

From W. B. WRIGHT, Esq., Acting Agent and Manager of the Madras Railway Company, to Lieutenant-Colonel J. H. M. SHAW-STEWART, R.E., Consulting Engineer for Railways, dated Madras, 11th November 1873, No. 928.

With reference to the representations that were made to you at the Meeting held in my office yesterday, I have the honor to request that you will be so good as to direct the attention of Government to the importance which the officers of the Railway attach to the speedy authorization of the expenditure for doubling the line between the Veysarapaudy Junction and Perambore, an estimate of which was forwarded to you on the 17th of September with my letter No. 731.

2. The experience which we have now had in working the improved train service has fully confirmed the belief that the proposed measure will ensure much greater safety and convenience, and I trust that you will be able to communicate authority for me to instruct the Acting Chief Engineer to put the work in hand at once in anticipation of the formal sanction of Government for the expenditure.
