Public Works DEPARTMENT

G.O. No.	1965 A.	Press
B.P. No.		Mis. —
Dated	21-7-195	2874

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
21st July 1874.*

No. 471A. Read the following letter from Lieutenant-Colonel J. GODDARD, R.E., District Engineer, Presidency, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Fort Saint George, 14th July 1874, No. 1,732:—

In the project for the transfer of Public Works Stores, etc., to the Seven Wells, sanctioned in G. O., No. 1,224, of 7th May 1874, a sum of Rupees 21,740 is provided for a line of sheds E. F. 587' in length on the western side of the enclosure, section as per C. D. in plan enclosed.

2 Plans.

1 Comparative Statement.

2. I have, however, the honor to draw your attention to G. O., No. 1,146, of 1st May 1874, communicating proceedings of a Committee reassembled to report on the suitability of the Public Works Stores and Workshops at Chepauk as a Military Hospital, wherein they state in paragraph 10 that, as certain buildings are at present roofed with corrugated iron sheeting, fresh roofing will be necessary.

3. Under these circumstances, roofing materials of Section A. B. as per plan enclosed will become available for transfer to the Seven Wells simply for cost of removal, and a saving of Rupees 2,000 may thereby be effected in the estimate, whilst superior accommodation may be secured by utilizing the material in the construction of the sheds referred to in my 1st paragraph.

4. I have the honor to enclose a comparative statement exhibiting the saving to be effected, and also a drawing exhibiting the sanctioned and proposed designs for the sheds, and to solicit permission to utilize the old roofing, to be removed from Chepauk, in the construction of the western row of sheds to the extent of 587 running feet as per Section A. B.

5. The increased breadth of the shed will compel us to shift the chimney of the engine and boiler-house from the western end of the building to the south-west corner, as per fly-sheet pasted on the sanctioned plan herewith forwarded.

No. 471B.

ORDER THEREON, 21st July 1874, No. 1,965A.

CIVIL WORKS, No. 38A.

THE alteration of design of portion of the sheds to be constructed at the new workshop site, in order to utilize materials of the old workshop not adapted for its new purpose, is sanctioned, and the estimate for sheds reduced by Rupees 2,000. But the Presidency District Engineer will bear in mind paragraph 2 of G. O., No. 1,224, of 7th May, which postpones the construction of sheds till after the main buildings shall have been completed.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the District Engineer, Presidency.
