Thos. District Engineer, Bangalore.

THE District Engineer, Bangalore,
will be instructed to take in hand the
whitewashing of the hospital of the 89th

2. All Officers in charge of Military Stations will report, without any delay, the amounts that can be spared from the Military Repair allotments at their disposal, and will be held responsible for non-utilization at the end of the official year of such sums as they do not give up at once.

3. It would appear that the subject of the great increase of expenditure on works of petty repair under Rupees 50 by the Barrack Department is one that requires to be carefully looked into. The Inspecting Engineers will inquire into the nature of the check actually exercised by District Engineers over the estimates and execution of such petty repairs, and which is expected of them by the orders transferring the work to the Barrack Department.

Head Quarters Mysore Division
Bangalore 4th December 1871
No 717

From The Officer Commanding
Mysore Division

To The Quarter Master General
Head Quarters
Fort Saint George

Sir I have the honor to bring to your notice that the District Engineer reports there are no funds left for repairs to Barracks and he has accordingly returned Bill for Barrack damages uncountersigned.

As there are still five months of the current official year to run it is most desirable that funds should be provided to meet the cost of damages, were the latter allowed to accumulate it is needless to point out how the buildings would suffer.

The District Engineer has remarked on the unusual amount expended by the Barrack Master during the present year, but this is easily accounted for by the fact that during 3 months of last year there were no funds and the damages that accrued during that period had to be met from this year's allotment.

I would therefore recommend that
at least 2000 Pipes be at once
provided for the unexpired portion
of the present year.

Have the honor ble

of the current of opinion here
is much divided. Some are
in favor of a more liberal
policy, while others are
in favor of a more conservative
policy. It is not easy to
decide which is the better
policy. The question is
very difficult.

There is a great deal of

SIR,

Enclosures 2
1 Endorsement with
2 letters -

With reference to the accompanying
endorsement dated 20th December 1873,

I have the honor to report that under
"Repairs Military" there is only a sum of
Rs. 240 at present available for transfer

2. On the 15th October 1873, the District
Engineer of Bangalore brought to notice
the inadequacy of the grant under this
head, and requested that application
might be made to Government for a
further grant of at least Rs. 10000 for
expenditure during this year. But
Captain Tibart was informed that
in G.O. N^o 1683, dated 30th June 1873, the
Government intimated that they had
no additional funds under Repairs
Military and that it will be time
to

* Rs. 52405

arrange for supplementing the repair
want by savings from other sources if
found necessary at the end of the 3rd
quarter of the official year. At the
same time I allotted a sum of Rs. 3041,
which was then at my disposal.

The expenditure in Bangalore,
up to end of November 1873, under this
head amounted to Rs. 48807.
