Sir,

Enclosures

Sent to Chief Engr. with letter No. 758 dated 25th June/74

With reference to the Superintending Engineer's Circular No. 693 dated 15th May/74 I have the honor to report that Berhampore there are 2 Flats Karnes, a magazine, Powder Room, Store room, Out godown and a large Cochilah all in use and all very old and likely to need constant repairs to the floors, roofs &c as well as requiring white washing perhaps twice

...ues a year. The basis of the
...building cannot be upheld
...& roads and do not include
...an annual outlay of £2,000
...or more each year
...is excessive.

2. There is hardly
...laid for the Serjeant Major
...and Instructor, for Military
...Medical Officer, Medical
...Paid £250 cannot be allowed.

3. Lastly there is the com-
...-munal road to be kept up
...This is about 3/4 of a mile
...long and has a grant of £120
...or about £150 a mile and
...perhaps a case might be
...Effected here by requiring the
...Municipality to keep up the
...road out of funds at their
...disposal. Just as any other
...road in their limits for the
...Cantonment roads legitimately
...in their limits and by grants

...road and no means an
...excellent Military road.
...The Officer Commanding the
...Station, however, does not ad-
...-vise any alteration of the ex-
...-isting arrangement for its
...maintenance as the control
...is not under the Control of the
...Municipal Commissioners & the
...road in question could
...be closed to general traffic when
...it needed. In all the other

...quite concurs with me.

4. There is only one arm of the
