*Proceedings of the Madras Government, Public Works Department,
30th July 1874.*

Read the following papers:—

No. 695. From the Chief Engineer of the Madras Irrigation and Canal Company, dated 15th June 1874, No. 64.

No. 10.

Note by the Chief Engineer for Irrigation.

In the letter as per margin the Examiner of Accounts brought to notice that the system under which General Management charges of the Madras Irrigation

and Canal Company's Establishments were divided between Capital and Revenue, in proportion to the outlay under those heads, respectively, was no longer applicable, and resulted in a debit to Capital on this account of 52 per cent., a percentage apparently far in excess of the share which Capital outlay absorbed of the time and attention of the staff, which was principally occupied in the revenue management of the canal. Mr. Williams proposed, therefore, that the system prescribed by the Government of India in the case of the Guaranteed Railways, which was introduced by G. O., 14th March 1872, No. 732, and under which one head of account was to be in the first instance debited with the whole cost of establishments employed on general duties, and thereafter credit given by the transference of a percentage of the charge to other heads, should be made applicable to the Company's Establishments.

To Examiner, No. 120, 24th March 1874.

From do. " 74, 16th April "

From do. " 295-I, 15th May "

To Chief Engineer and Manager, Irrigation and Canal Company, No. 4, 27th April 1874.

To do. No. 7, 21st May 1874.

From do. " 64, 15th June "

2. The subject was then discussed in the correspondence as per margin, with the result that the following arrangement has been proposed and agreed to by the Chief Engineer and Manager of the Company:—

1st.—That all charges for General Management and Executive Establishment shall be charged in the first instance to Revenue.

2nd.—That the Revenue Account shall be credited and the Capital Account debited with 33½ per cent. on, or one-third of, the outlay under the latter head.

3rd.—That the 33½ per-centage chargeable to Capital for Establishment shall be divided into three parts, one of which shall be deemed the charge for General Management and the other two that for Executive Establishments.

3. These proposals are submitted therefore for the approval of Government, with a recommendation that they be introduced from the 1st April 1874.

OOTACAMUND,
22nd June 1874.

(Signed) JOHN MULLINS, Lieut.-Colonel, R.E.,
Chief Engineer for Irrigation.

No. 696.

ORDER THEREON, 30th July 1874, No. 2,072.

IRRIGATION, No. 63.

The proposals, submitted by the Chief Engineer for Irrigation, for introducing the system of adjusting general charges for establishments in the Accounts of the Madras Irrigation and Canal

*Proceedings of the Madras Government, Public Works Department,
30th July 1874.*

Company, which was made applicable in 1872 to the Guaranteed Railways, are approved, and the adoption of this arrangement from 1st April 1874 is sanctioned.

2. It is observed that all establishment charges will, in the first instance, be debited to Revenue, and that thereafter Capital will be charged, for Establishments, one-third of the outlay under that head, one-third of this charge being considered as covering the cost of General Management, and the remainder that of Executive Establishments.
