Dated

4-2-

195

Not to be folded or roughly handled

Read the following papers:—

No. 86. From T. MOSS, Esq., Officiating Controller of Public Works Accounts, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Fort St. George, 18th October 1873, No. 4,587:—

With reference to my No. 3,371 of the 30th August last, I have the honour to forward the statement of remunerative works for the year 1871-72.

2. The statement has been compiled from returns furnished by District Engineers, and corrections have been applied by this office where possible. The figures in black are throughout those returned by the District Engineers; the figures in red, which are those adopted by this office, are based upon the approximate Capital Accounts already submitted to the Accountant-General, Public Works Department, which were framed from the best available data. It would be useless to attempt an explanation of the differences between the figures adopted by this office and those furnished by District Engineers.

3. As soon as something has been done in the way of grouping the irrigation works in the Presidency, this office will be able to make a commencement with the final Capital and Revenue Accounts, and when Capital Accounts have been prepared for the different works included in the statement of remunerative works, it will of course be the duty of this office to furnish annually the information required. In the meantime I would suggest that the statement of remunerative works should be finally prepared by District Engineers, and by them submitted direct to Government, or else that the preparation of the statement be left *entirely to this office*. To call upon this office to revise the statements prepared by District Engineers is virtually to require the statement to be prepared twice over, and each time upon different data.

Proceedings of the Madras Government

Statement of Remuneration

Names of Works.	CAPITAL.				Description.
	OUTLAY ON CONSTRUCTION (DEAD STOCK VALUATION).				
	Description.	Amount up to the end of the past year.	Amount of the current year.	Total.

RS.	RS.	RS.		RS.	RS.	RS.	
19,365	2,338	21,703	Gross proceeds from all sources.	85,645	14,988	1,00,633	The income shown in the remunerative statement of previous years against the Thadapully, Arkenkottah, and Calingaroyen channels represents the revenue of fresh cultivation in each year from 1858-59 instead of the increase of revenue of all lands brought under cultivation from and after the date of the completion of improvements up to the end of the year for which the statement is made. To calculate the correct income since the year in which any improvements (forming a portion of the capital outlay) was completed for the first time by the British Government prior to 1855-56, the exact year in which such outlay was incurred cannot be traced out from the records, hence the capital outlay prior to 1855-56, which was added in the statement for 1868-69, has been omitted in this statement, and the item of interest accordingly corrected, and the correct revenue income since 1855-56 has been inserted.

(Signed) T. MOSS,
Offg. Controller of P. W. Accounts,

*Proceedings of the Madras Government, Public Works Department,
4th February 1874.*

No. 826.

No. 87. *Note by the Chief Engineer for Irrigation.*

THE statement of remunerative works for 1871-72 received from the Controller of Public Works Accounts is perhaps not of much value, but, under present circumstances, it seems unlikely that its accuracy can be assured.

2. The grouping of works will not, as the Controller seems to think, facilitate the preparation of such statements as these. Indeed many of the entries in this statement form distinct groups or systems. When groups shall have been arranged correct information regarding the component items of a group will still be requisite.

3. Some of the differences between the Controller's figures and those of the district officers are immaterial; and the great differences in the entries for the Coleroon Anicut are due to an expenditure of about 1,40,000 Rupees being treated by the one officer as Capital, and by the other as Revenue outlay. Such a difference as this could easily have been set right. For the Thadapully and Calingaroyen channels the Controller's entries agree with those of the preceding year, and the remarks against them, explanatory of the changes made by the District Engineer, are not understood.

KISTNA,
24th November 1873.

(Signed) J. MULLINS, Lieut.-Colonel, R.E.,
Chief Engineer for Irrigation.

No. 88. ORDER THEREON, 4th February 1874, No. 276.

IRRIGATION, No. 9.

Account.

ORDERED that a copy of these Proceedings, containing the remunerative statement of works for the year 1871-72, be forwarded to the Government of India.

2. It is observed that, however impracticable it may be for the Controller's Office to check the entries of expenditure of old date, there should be no difficulty in seeing that the Capital and Revenue expenditure of the year is correctly entered.

3. As soon as the new accounts now under preparation may be ready, the remunerative statement will be superseded and discontinued, and in the meanwhile it should continue to be prepared in the same manner as hitherto.

(True Extract.)

(Signed) G. W. WALKER, Colonel, R.E.,
Secretary to Government.

No. 89. (DOCKET No. 277, dated 4th February 1874.)

COPY of the above forwarded to the Government of India.

(True Extract.)

Colonel, R.E.,

Secretary to Government.

Office of the Controller of
Public Works Accounts
St. George, East of George 18 October 1893

The Office of the Controller of Public Works Accounts
St. George

The Secretary to Government
Public Works Department
St. George

With reference to my letter of the 20th August last, I have the
honor to forward the Statement
of Expenditure for the year

The Statement has been com-
pared with the Returns furnished by
the District Engineers and corrections
have been applied by this office
in the printed. The figures in black
are those returned by
the District Engineers; the figures
in red, which are those adopted
by this office, are based
upon

upon the approximate Capital
Accounts already submitted to
the Accountant General Public
Works Department, which were
framed from the best available
data. It would be useless to
attempt an explanation of the
differences between the figures
adopted by this Office, and those
furnished by District Engineers.
3. As soon as something has
been done in the way of grouping
the ~~disposition~~ ^{disposition} ~~marks~~ ^{marks} in the Presi-
dency, this Office will be able to
make a commencement with
the final Capital and Revenue
Accounts, and when Capital Account
have been prepared for the different
works included in the Statement
of Remunerative works, it will
be the duty of this Office
to furnish annually the infor-
mation required. In the mean-
time I would suggest that
the Statement of Remunerative
works should be finally prepared
by

Comp
M

No. 276

P.W. Department

Proceedings of the Madras Government.

Read the following:-

From

The off. Secy of P.W. Dept. (H. E. Secy to Govt. 18 Dec 72)
" Chief Engineer } (in a " 826 u. 24 Dec 72)
for Bridge }

Ordered that a copy of these
Proceedings, containing the Reven-
ue statement of works for
the year 1871-72, be forwarded
to the Government of India.

2. It is observed that how-
ever impracticable it may be
for the Controller's Office to
check the entries of expenditure
of old date, there should be
no difficulty in seeing that the
Capital and revenue expenditure
of the year is correctly entered.
As soon as the new
accounts

MR

Let me have a printed
copy soon

Accounts now under prepara-
tion may be ready. The

Remunerative statement
will be superseded and
discontinued, and in the
meanwhile it should
continue to be prepared
in the same manner as
hitherto.

Dec. 24/13
G.M.

Packet No. 277

Copy of the above
forwarded to the Govt.
India.
