Land which has become unprofitable by an act of Government

claimed by the Inamdar. The Inamdar was at first unwilling to part with less than the whole extent of his daram at 100 Rs an acre, but before the Acting Sule collector, Mr. Crosthwaite, he agreed to give up the required portion at that rate. He has had an offer of 300 Rs for a small piece (2 Acres) of what is required for the Butcherry, but he would be glad to meet the wishes of Government in the matter provided he can get that rate.

The District Engineer on being asked states that an estimate for the Butcherry is under preparation. The necessary provision on account of compensation for land required will be made in the estimate. No allotment for the said work has been sanctioned in the current year's Provincial Budget. It will therefore be necessary to ask for a specific grant in the application to be made on the Budget. He agrees that it is important to secure the land without delay, even though the construction of the Butcherry be delayed to another year.
