Government of Madras

Public Works

DEPARTMENT

G.O. No.	3079	Press
B.P. No.		Mis.
Dated	23-10-	1954

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
23rd October 1874.*

Read the following papers:—

No. 509. From Colonel F. J. MOBERLY, R.E., District Engineer, Chingleput, to Lieutenant-Colonel J. MULLINS, R.E., Chief Engineer for Irrigation, dated Camp at Arumbaukum, 24th August 1874, No. 1,855:—

I HAVE the honor to enclose, for the sanction of Government, five estimates for clearing spring channels in the village of Palavakam, Sydapett Taluq.

2. The revenue derived from them amounts to Rupees 389; the supply of water being taken without distinction from all, I am unable to settle as to the distribution of it.

3. The Revenue Authorities consider the work necessary.

No. 509A. Note by the Chief Engineer for Irrigation, dated 7th September 1874, No. 684.

No. 510. ORDER THEREON, 23rd October 1874, No. 3,019.

IRRIGATION, No. 36.

The Government are not prepared to undertake the cost of clearing spring channels and ponds, and the estimates for this work submitted by the Superintending Engineer, Chingleput, will therefore be returned unsanctioned.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the Superintending Engineer, Chingleput.

for Irrigation D. P. M.

Sir,

enclosures
Estimates

I have the honor to enclose for
the sanction of Government & Estimates
for clearing Spring Channels in the
village of Palavakkam Kodapett & Talag.

2 The revenue derived from them
amounts to Rupees 389- the supply of
water being taken without distinction from
all I am unable to settle as to the dis-
tribution of it.

3 The Revenue authorities consider
the work necessary-

I have the honor to be,

Sir,

Your most obedient Servant,

R. E.

Colonel, R. E.,

District Engineer Chingleput.

The revenue derived from these ponds is reported to be Rupees 389, and no repairs have been executed to them for a great many years. Indeed it may be doubted whether Government have ever spent any money upon them. Whether the outlay will materially improve the water supply or not I am unable to judge.

fide, but I believe that in most
 parts of the country spring chan-
 nels are cleared by the ryots
 cultivating under them and
 spring ponds should I think
 be similarly dealt with, the
 Revenue or a payment being fixed,
 if this has not been already
 done, with reference to the nature
 of the supply and to the la-
 bour entailed in making use
 of it. Mow or less clearance is
 often needed many times of the
 year and of course the P.W.
 establishments could not at-
 tend to such petty matters
 moreover I doubt very much
 whether the work done could
 be properly checked & measured.
