PALAMCOTTAH,
6th October 1874.

(Signed) J. MULLINS, Lieut.-Colonel, R.E.,
Chief Engineer for Irrigation.

1 Statement. SUBMITTED for the information of
Government.

The expenditure on Agricultural Repairs in August amounted to Rupees 88,180, against 1,14,000 the average required for the year; but in the five months, the outlay has been equal to very nearly half the grant for the year. On Minor New Works the expenditure in and up to the end of August has exceeded the average required to utilize the grant.

2. Chingleput continued to be more behind hand than any other district with repairs, on which the outlay in five months was about that proper for one month. Bellary is the district in which the next least satisfactory progress has been made, less than one-seventh of the grant having been spent. Cuddapah and Salem are much behind hand, and in North Arcot the progress has not been as good as in the earlier months. Cuddapah has made a start with Minor New Works.

*Proceedings of the Madras Government, Public Works Department,
27th October 1874.*

3. Those districts in which the progress has been remarkably good will have their allotments increased, on the sanction of an addition to the grant for the Presidency, or by transfer from districts in which the Budget grants will apparently not be worked out.

(Signed) JOHN MULLINS, Lieut.-Colonel, R.E.,
Chief Engineer for Irrigation.
